

# **pmis\_updatingnyrpositions\_and\_rolling12mo employees**

# Table of Contents

**pmis\_updatingnyrpositions\_and\_rolling12moemployees** ..... i

This process moves employees who receive their first paycheck in July from next year Position Management to current year Position Management. It also updates some of the fields on the following Maintenance tabs in the current year (see step 7 for detailed information):

- Employment Info
- Pay Info
- Job Info
- Distributions

A separate simulation needs to be set up for employees who receive their first paycheck in July. This is necessary because the position in the next year Position Management reflects the current year's salary information. The simulation updates the fields in the next year positions for the new school year and clears the **Accept Changes** field. The new salary information from the next year position is updated in the current year, updating both the current year Position Management and the Staff Job/Pay Data fields for those employees. As 12-month employees do not accrue, it is not necessary to move them to the next year payroll. Contact your regional ESC consultant to discuss moving 12-month employees to the next year payroll.

**Note:** Depending on the LEA, it may not be necessary to set up separate simulations. If the LEA has determined next year salaries and completed all interfacing to Budget for the year, one simulation can be used when moving employees. Contact your regional ESC consultant to discuss this option.

It is important to consider how this process affects the budget. If you update 12-month positions with the new salary amount for the next school year in the next year Position Management, running the simulation a second time at a later date for all employees gives the 12-month employees an additional increase. If you were unable to update the budget with accurate salaries for all employees prior to rolling 12-month employees, it is necessary to update Budget with multiple simulations. Reference the [Interface to Budget Checklist](#).

The following checklist assumes the LEA has interfaced the payroll salaries to Budget using the Salary Simulation process in Position Management.

**TIP:** Be sure to complete service records before continuing this process. This process updates the begin and end contract dates for 12-month employees in the current year payroll. Service records must reflect begin and end dates from the current school year.

1. [Verify account code fiscal years.](#)

[Position Management > Utilities > Update Fiscal Year by Fund](#)

Verify that the account code fiscal years are accurate. This tab provides a list of the fund/fiscal years that are set up in the positions. This process increments the position distribution fiscal year by 1.

**Note:** Since the account codes are validated against the budget, there should not be any fiscal years less than the next year. If there are, generate a user-created report to identify the positions and manually update the information.

2. [Generate a user-created report.](#)

[Position Management > Reports > User Created Reports > CYR/NYR Positions](#)

Generate a PMIS user-created report to verify that the **Increase Eligible** field is selected for applicable positions. It is possible that the field is not selected for new LEA employees from last year.

**It is recommended** to verify the **Nbr Remain Payments** field prior to calculating salaries.

Select the following fields on the user-created report:

The screenshot shows the 'Reports > User Created Reports > CYR/NYR Positions' interface. At the top, there are buttons for 'Save', 'Create Report', 'Delete', and 'Reset', along with 'Year: C' and 'Frequency: 6'. Below these are input fields for 'Employee Nbr.' and 'Position Nbr.'. A 'PMIS Position/Distribution Export File Auto Select Options' box contains checkboxes for 'PMIS Position Control' and 'PMIS Position Distribution'. The main area is divided into three sections:

- PMIS Position Control:** A grid of checkboxes. The following fields are checked: Position Nbr, Billet Nbr, Position Type, Position Status, Nbr Remain Payments, Increase Elig, and Occ Pay Type.
- PMIS Position Distribution:** A grid of checkboxes. None are checked.
- Employee Demo:** A grid of checkboxes. The following fields are checked: First Name and Last Name.

☐ Click **Create Report**. The report is displayed. Use the sort/filter functionality to group the applicable data.

**Note:** The number of remaining payments reflected on the report is displayed on the Job Info tab as the number of annual payments and the number of remaining payments for the employee for any P position type. If the LEA uses S acct types or business allowances for extra duties, S position types on this report should reflect the correct number of remaining payments. Prior to continuing, make the necessary position corrections.

### 3. [Verify retiree information.](#)

[Position Management](#) > [Maintenance](#) > [PMIS Position Modify](#) > [Budget](#)

Verify that the **TRS Status** field is set to 5 - *Retired* for retirees. If the TRS status is incorrect, there is a possibility that the status will be incorrect (TRS-eligible) when the employee is moved to the current year payroll.

### 4. [Identify employees to be moved to current year payroll.](#)

**Log on to the current year.**

[Payroll](#) > [Reports](#) > [User Created Reports](#)

Generate a user-created report to identify the employees who begin their new contract in July. It is possible that the employees are inactive in the current year, be sure that the **Active Employees Only** field is not selected.

Prepare a list of new hires as a supplement to this list. Sort by the **Payoff Date** to verify that all employees who have a June payoff date have the same date. For example, it is possible that an employee has a payoff date that is a day before or after the actual June payoff date.

Generate a user-created report again to verify that all of the data is accurate. Filter the report using your LEA's June payoff date (YYYYMMDD).

5. [Create a salary simulation.](#)

**Log on to the next year.**

Prior to setting up and performing salary simulations, review the [Position Management: Salary Simulations Overview](#) guide for a description of the Salary Simulation pages and samples of the available simulation reports.

[Position Management > Utilities > Salary Simulation > Simulation Options](#)

□ Complete the following:

- **(Recommended)** In the **Include Vacant Supplement Positions** field, select *No*.
- In the **Update Forecast** field, select *No*.
- In the **Update Budget** field, select *N - Do Not Update Budget*.
- Include all first pay date codes for 12-month employees who receive their first paycheck in July. Include all local/annual, hourly/daily, midpoint (if applicable), and extra duty tables.
- If increases are not provided to 12-month employees in July, do not include an increase in the salary tables. If increases are provided to 12-month employees in July, update the salary tables with the increase data.
- If the LEA decides to interface the simulation to Budget, add the deductions with the annual amount for the Employer Contribution.

□ Click **Save**.

□ Click **Execute**. Review the Simulation Process Error Listing and correct any errors prior to continuing the process.

- Generate the simulation reports and review all salaries.
- Review the user-created report to confirm that all 12-month employees or positions are included in the simulation. The reflected salaries are the amounts that are used to pay employees in the current year payroll.

If necessary, continue making corrections and running the simulation until all of the salary amounts are correct.

- Run the final simulation. This process updates the included state step, pay step, and salary amount in the next year PMIS for all 12-month positions and clears the **Accept Changes** field.
  - In the **Update Forecast** field, select Yes.
  - Click **Save**.
  - Generate and save the reports.
  - Click **Process** to process the simulation. [Create a backup](#).

## 6. [Copy school calendars from next year to current year payroll.](#)

### Log on to the next year.

[Payroll > Next Year > Copy Next Year Tables](#)

The screenshot shows a web interface titled "COPY NEXT YEAR TABLES". It features a list of payroll tables with checkboxes and dropdown menus. The "School Calendar" row is highlighted with a black oval, and its checkbox is checked. The dropdown menu for "School Calendar" is open, showing the selected code "CO,DC,PC,SP". To the right of the table list are two buttons: "Execute" and "Select All Tables". A black arrow points down to the "Execute" button.

Table Name	Value	Checkbox	Dropdown
Accrual Calendar		<input type="checkbox"/>	⋮
Extra Duty Pay		<input type="checkbox"/>	⋮
Hourly / Daily Salary		<input type="checkbox"/>	⋮
Job Code		<input type="checkbox"/>	⋮
Local Annual Salary		<input type="checkbox"/>	⋮
Midpoint Salary		<input type="checkbox"/>	⋮
School Calendar	CO,DC,PC,SP	<input checked="" type="checkbox"/>	⋮
State Minimum Salary		<input type="checkbox"/>	⋮
Substitute Salary		<input type="checkbox"/>	⋮
Workers' Compensation Rates		<input type="checkbox"/>	⋮

- In the **School Calendar** field, select only the 12-month employee calendars.

**TIP:** The calendar code is displayed in the first pay date code on the simulation (e.g., J40 includes calendar code 40).

- Click **Execute**.

**Note:** If changes were made to the next year payroll tables (extra duty pay, hourly/daily salary, job code, local annual salary, etc.), copy the tables from the next year payroll to the current year payroll.

## 7. [Generate a user-created report.](#)

**Log on to the current year.**

[Payroll > Reports > User Created Reports](#)

Generate a user-created report with the **Hrs Per Day** field selected. This field is overwritten when positions are moved from the next year to the current year.

8. [Move forecast to current year position and payroll.](#)

**Log on to the next year.**

[Position Management > Utilities > Move Forecast to CYR Position and Payroll](#)

This process is used to move payroll and position forecast records to the current year PMIS with the same information that is set up in the next year PMIS records.

It also updates fields on the following Maintenance tabs: Employment Info, Pay Info, Job Info, Distribution

The **Accept Changes** field must be cleared when moving position records from forecast to current; otherwise, position records cannot be moved. The **Accept Changes** field is cleared after running a simulation with the **Update Forecast** field set to Yes. Similarly, you cannot run a simulation for positions without the **Accept Changes** field selected.

Utilities > Move Forecast to CYR Position and Payroll

Execute

Select Pay Frequency: 5 - Semimonthly CYR

Include Vacant Supplements:

Validate Accounts against General Ledger:

Update TRS Year Flag:

Update Workers' Comp Annual and Remaining Payments:

Add Additional Workers' Comp Payments: 0

Select State Minimum Salary Table (CYR/NYR): N - Next Year

Select First Pay Date Codes or blank for ALL: JCO

Include Extra Duty:

Select Extra Duty Codes or blank for ALL: --

Select Positions or blank for ALL: (Includes ALL billets for selected positions Blank for ALL not processed when Positions/Billets selected) --

Select Positions/Billets or blank for ALL: --

Select Supplement Positions or blank for ALL: (Includes ALL billets for selected supplement positions Blank for ALL not processed when Supplements/Billets selected) --

Select Supplement Positions/Billets or blank for ALL: --

Clear Job Years:

Clear Job Weekly Hours Scheduled:

<b>Select Pay Frequency</b>	Click  to select the pay frequency where you want to move to the current year. This is a required field.
<b>Include Vacant Supplements</b>	Select to include the vacant supplement positions.  <b>Recommendation:</b> Do not select this field unless it is your final move.
<b>Validate Accounts against General Ledger</b>	This field is selected by default. Clear this field to not validate the accounts against the general ledger.  <b>Recommendation:</b> Select this field if you are doing your first test move. By doing so, the appropriate errors are generated to inform you of incorrect account codes in PMIS. If not selected, those account codes are moved to Payroll if each account component is valid.
<b>Update TRS Year Flag</b>	Select to update the <b>TRS Year</b> field on the Payroll > Staff/Job Pay Data > Job Info tab.  <b>Recommendation:</b> Select this field if the employees being moved will receive a contract payment prior to the first pay date of the new school year (i.e., July and August starts).
<b>Update Workers' Comp Annual and Remaining Payments</b>	Select to update the <b>WC Ann Pymts</b> and <b>WC Remain</b> fields on the Payroll > Staff/Job Pay Data > Job Info tab.  The <b>WC Ann Pymts</b> field indicates the number of annual workers' compensation payments for the contract period and the <b>WC Remain</b> field indicates the number of remaining workers' compensation payments to be made during the contract period.
<b>Add Additional Workers' Comp Payments</b>	Type the number of additional workers' compensation payments. The field accepts any value between 0-9.  This field is helpful as it can be difficult to identify which months have a third payroll for the biweekly frequency. You can use this field to add one or two to the contract months times two.
<b>Select State Minimum Salary Table (CYR/NYR)</b>	Click  to select the current year or next year. This is a required field.  This selection determines which salary table is referenced when calculating the state foundation salary.
<b>Select First Pay Date Codes or blank for ALL</b>	Select the first pay date codes that begin their new contract payout. Type the pay date codes, separating multiple pay date codes with a comma but no space (e.g., 1,17,88,A1). Or, click  to search for pay date codes. Otherwise, leave blank to use all pay date codes.
<b>Include Extra Duty</b>	Select to include extra duty in the process. If not selected, no extra duty will be processed even if extra duty codes are selected.

<p><b>Select Extra Duty Codes or blank for ALL</b></p>	<p>Select all of the supplements as only those supplements that are tied to an employee being moved based on the first pay date code will be selected. You can select a supplement even if it is tied to an employee who you do not want to pay yet. Type the extra duty codes, separating multiple extra duty codes with a comma but no space (e.g., 08,20,A2,TF). Or, click  to search for extra duty codes. Otherwise, leave blank to use all extra duty codes.</p>
<p><b>Select Positions or blank for ALL (Includes ALL billets for selected positions Blank for ALL not processed when Positions/Billets selected)</b></p>	<p>Type the position codes, separating multiple position codes with a comma but no space (e.g., PRIN,T187). Or, click  to search for position codes. Otherwise, leave blank to use all position codes.</p>
<p><b>Select Positions/Billets or blank for ALL</b></p>	<p>Type the position/billet codes, separating multiple position/billet codes with a comma but no space (e.g., PRIN/00001,PRIN/00006). Or, click  to search for position/billet codes. Otherwise, leave blank to use all position/billet codes.</p>
<p><b>Select Supplement Positions or blank for ALL (Includes ALL billets for selected supplement positions Blank for ALL not processed when Supplements/Billets selected)</b></p>	<p>Type the supplement position codes, separating multiple supplement position codes with a comma but no space (e.g., PRIN,T187). Or, click  to search for supplement position codes. Otherwise, leave blank to use all supplement position codes.</p>
<p><b>Select Supplement Positions/Billets or blank for ALL</b></p>	<p>Type the supplement position/billet codes, separating multiple supplement position/billet codes with a comma but no space (e.g., PRIN/00001,PRIN/00006 ). Or, click  to search for supplement position/billet codes. Otherwise, leave blank to use all supplement position/billet codes.</p>
<p><b>Clear Job Years</b></p>	<p>Select to reset the job years to the default value (blank) on the employee's job record.</p> <p>If not selected and the employee's forecast position job code is the same as the current year job master record, then the new job record is populated with the values from the current year job master record.</p>
<p><b>Clear Job Weekly Hours Scheduled</b></p>	<p>Select to reset the weekly hours scheduled to the default value (blank) on the employee's job record.</p> <p>If not selected and the employee's forecast position job code is the same as the current year job master record, then the new job record is populated with the values from the current year job master record.</p>

Click **Execute** to execute the process. The following reports are available:

- o Move Forecast Process Error Listing [Important errors](#)

Error Message	Description
<b>Warning: The employee has Contract Balance amounts not equal to zero for current jobs.</b>	The employee has not been paid off by payroll.
<b>Failure: Position Accept Changes Flag set to Y</b>	The position will not be moved to the current/payroll.
<b>Failure: Emp Nbr must have one position declared as primary.</b>	<p>The error does not necessarily reference the <b>Primary Job</b> field on the position. If an employee has a regular position and a supplement position, but there is an error that causes the primary position to fail, this message often indicates that there is only a supplement position to be moved. It is recommended to review and correct any errors that begin below this message about primary positions. After making those corrections, run the process again. This may resolve the primary job errors.</p> <p>This error also occurs when calendars have not been copied to the current year.</p>

Error Message	Description
<p><b>Warning: Emp Nbr has multiple supplement positions for the same job; however, one or more of the following do not match: Campus ID, Dept, TRS Status Code, FTE Units, Incr Elig, Max Paymts, FICA Elig, Unemp Elig, EEOC, Workers Comp, Supplement Extra Days or Category Cd. The values from lowest Supplement Position Number/Billet may be used if new rows are inserted for the Pay Info and Job Info tabs.</b></p>	<p>This error indicates that the fields on the Payroll &gt; Tables &gt; Salaries &gt; Extra Duty tab do not match those selected on a supplemental position.</p> <p>Use the Position Management &gt; Inquiry &gt; PMIS Staff Inquiry to determine the Position Number and Billet for any supplemental positions for the employee. Then, use the Position Management &gt; Maintenance &gt; PMIS Supplement Modify page to retrieve the position and billet and compare the fields on the position to the Payroll &gt; Tables &gt; Salary &gt; Extra Duty tab for the extra duty number on the supplement. For example, in some cases the W/C code on the position may not match the W/C code on the table. Or, the <b>Exp 373</b> field on the position may be selected, but the <b>Exp 373</b> on the table for that extra duty code may not be selected. Either the table or the position needs to be updated so that they both match. If changes are made to the Extra Duty table, it is necessary to move the table to the current year payroll before proceeding.</p>

Click **Generate Reports**. The selected reports are displayed. [Review the report](#).

Click **Continue** to view the next report. Or, click **Return** to return to the report selection page.

After reviewing all of the reports and correcting all errors, return to the report selection page and click **Process** to move the forecast records to the current year. You are prompted to create a [backup](#).

After the process is completed, the actual update is performed. If the update is successful, a message is displayed indicating that the move forecast updates were processed successfully.

**Reminder:** If fund/fiscal year(s) were added to Finance based on the error report listing, they should be deleted at this point.

Click **Cancel** to return to the Move Forecast to CYR Position and Payroll page without moving the forecast records to the current year.

If corrections are processed, repeat this step.

Generate and save each report. Compare the Update CYR Positions From Forecast report to the user-created report that was previously generated to confirm that all 12-month employees are included. The last two reports contain the same information; one is sorted by employee name and the other by campus ID. These reports reflect the existing salary in the current year payroll and the new salary, which overwrites the current year payroll amounts. Review the reports for accuracy.

9. Confirm that CYR salaries are accurate.

**Log on to the current year.**

Verify the current year data to confirm that the salaries are correct. The following fields are updated:

The screenshot shows the 'EMPLOYMENT INFO' form in a Personnel system. The 'EMPLOYMENT INFO' section contains the following fields:

## 10. Mass update fiscal year.

### Log on to the current year.

[Payroll](#) > [Utilities](#) > [Mass Update](#) > [Employee](#)

Skip this step if your LEA has a 7/1 fiscal year.

Mass update the fiscal year to the current school year for all employees.

Select **Fiscal Year** and type the current year fiscal year. Before processing, stop to consider if the LEA uses other fiscal years in the account codes for employees. If the entered year is not the only used fiscal year, additional parameters may need to be selected.

Contact your regional ESC consultant if you need assistance.

---

Identify those employees with a June payoff date and mass update the **Hrs Per Day** field.

- For LEAs that use the hours per day functionality in the current year payroll, select the **Hrs Per Day** field and type the number of hours per day for the majority of employees.
- Use the parameters to select specific groups of employees for the update.
