Update employee credentials

Personnel > Tables > Credential

Update the following tabs to reflect any employee credential changes. This information is used to maintain teacher credentials.

Note: The Teaching Specialization tab is used to report Pre-K teachers for Class Roster so if there have been changes, you can make those updates now in anticipation of the submission.

This task is usually done by the personnel department and does not affect salary calculations.

The following credential tabs are shared between the current year and next year records; therefore, changes to the current year records are effective in the next year records, and vice versa.

- Personnel > Tables > Credential > Major/Minor
