## Notes:

- This process deletes all existing employees from the next year payroll files and a clean work file is now available allowing you to begin building next year data. In addition, all

tables in all pay frequencies are cleared; therefore, it is only necessary to perform this process in one pay frequency even if your LEA has multiple pay frequencies.

- This process can be verified by running the [Personnel > Reports > Personnel Reports > HRS1000 - Roster of Personnel Report](#) for both active and inactive employees with the next year frequency. The report results should be blank.
