Select Gain Codes

The Gain Codes lookup is used to select one or more gain codes.

Select a gain code:

- The gain codes are listed in ascending order.
- To search for a specific gain code, begin typing the gain code or description in the **Search** field. The list is automatically filtered to display the gain codes that contain the characters that you have typed.
- When you locate the gain codes to be included, select the corresponding checkbox and click **OK**. The lookup closes, and the field/parameter is populated with the selected codes.
- Click **Cancel** to close the lookup without selecting a gain code.
