TxEIS field	Element ID	Data Element	Description	PEIMS Submission
<b>Percent Day Employed</b>	E0760	PERCENT-DAY-EMPLOYED	<p>Indicates the percentage of a standard district work day for which the employee is hired to work. For an employee on contract, the percentage can be determined directly from the contract: full-time = 100, half- time = 050, and so on. For a non-contract employee, the percentage can be determined as follows.</p> <p><b>Example:</b> The standard work day for the district is 7 hours. An employee is hired to work for 4 hours per day. This data element is coded as 057 for the employee because <math>4/7 = .571</math>, which is rounded down.</p> <p>Employees such as cafeteria workers and bus drivers who work only a few hours each day should not be reported as 100 in this field. Consider the number of hours worked in relation to the standard district work day, not the job.</p>	Summer Fall
<b>PEIMS Auxiliary Role ID</b>	E1594	AUXILIARY-ROLE-ID	<p>Indicates the capacity in which a non-exempt auxiliary employee serves. This must be reported for all employees who serve in a non-professional or non-paraprofessional role. Employees reported with an Auxiliary Role ID are reported with the base pay associated with object code 6129.</p>	Fall

**Note:** Professional and paraprofessional staff may also be reported with an Auxiliary Role ID if they serve the LEA in a non-professional or non-paraprofessional role. A classroom teacher (Role ID 087) who also drives a bus route for the school would require an Auxiliary Role ID to be reported. In this case, the employee would have at least two payroll accounting entries: one with object code 6119, and one with object code 6129.

Because there may be duplication between Role ID and Auxiliary Role ID, the district must use its

discretion in determining if the employee is serving in a professional or non-professional capacity.
