Generate the HRS3000 - Calendar YTD and HRS5000 - 941 Worksheet reports to verify that the fourth quarter totals and the previously reported 941 Worksheet quarter totals equal the total YTD amounts. If the totals do not balance, it is possible that data changed in a previous quarter (in TxEIS) and a 941C was not reported; if that is the case, make the necessary adjustments to correct the issues.

The report provides a listing of employee earnings between January 1 and December 31. Typically, this report is printed after posting payroll information to the master file to verify employee earnings.
