**w2\_generate\_validation\_report** ..... i

Use the [Human Resources > Reports > HR Reports > Quarterly/Annual Reports > HRS5100 - W-2 Forms](#) report to generate the W-2 Validation report to review your W-2 totals.

Also, verify the totals against the [Human Resources > Reports > Year To Date Reports > HRS3000 - Calendar Year To Date Report](#) and [Human Resources > Reports > HR Reports > Quarterly/Annual Reports > HRS5200 - Third Party Sick Pay Report](#). The combined totals for the Calendar YTD and Third Party Sick Pay reports should balance to the Validation report. Although the third-party sick pay withholding tax displays as a separate amount on the Validation report, it is included in the employee's withholding tax amount.

Refer to the [How W-2 Box Amounts are Populated](#) page for clarification about how third-party sick pay amounts and 457 deferred compensation contributions and/or withdrawal amounts are handled.

**Notes:**

The Roth annuity is not displayed on the Validation report, but it is displayed in Box 12 - BB on the W-2. **DO NOT** continue until all reports are balanced.

If any manual processes are performed (e.g., check issues, check voids, or deduction refunds) that change the employee's calendar year-to-date information, generate the reports again to verify the amounts.

**Image**

All parameters below the **Tax Year (####)** parameter are only used when generating the W-2 submission file (W2REPORT).

Print the last page and use the report totals in the balancing process.

**Note:** The Calendar YTD, Quarterly 941 Worksheet, and W-2 total amounts should match. Identify and correct any discrepancies if necessary.
