PMIS Position History - HRS6115

Human Resources > Maintenance > PMIS Position History

This page is used to view historical records of data changed on the Maintenance > Position Admin or Maintenance > Position Modify pages. Since each change made to a position management record creates a new historical record, many records may exist for an employee. Since this data serves as a historical record, the data should not be altered.

Retrieve a historical position record:

Field	Description
Position Number	Begin typing a position number, a drop-down list of corresponding data is displayed. Select a position number from the list. The field can be a maximum of 13 characters. Leading zeros are not required. However, if alphanumeric values are entered, the field is not zero-filled. If the position number is not known, click ⋮. The Positions pop-up window opens with a list of all positions. To search for specific positions, type data in one or more of the search fields. Click **Search**. A list of data that matches the search criteria is displayed. Select a position number from the list. Otherwise, click **Cancel**.
Position Description	Begin typing a position description, a drop-down list of corresponding data is displayed. Select a position description from the list. If the position description is not known, click ⋮. The Positions pop-up window opens with a list of all positions. To search for specific positions, type data in one or more of the search fields. Click **Search**. A list of data that matches the search criteria is displayed. Select a position number from the list. Otherwise, click **Cancel**. The position **Description** field in the top grid is only enabled for editing if the **Allow CYR Position Description Changes (Admin only)** field is selected on the District Administration > Options > PMIS District Options page.

Click **Retrieve**. The associated billet information is displayed.

Billet Number	Type the billet number used to identify the various positions within the position number. The field can be a maximum of five digits. Leading zeros are not required.

Click **Retrieve** to display the position history information. The grid displays the following information for the selected employee:
