Demographic Information - HRS3000

Human Resources > Maintenance > Staff Demo > Demographic Information

This tab is used to enter personnel data including name, address, phone number, and emergency information. The data established through this tab is used throughout the system.

Notes:

- Warning: If the **School Year for PEIMS Codes** field does not contain a valid value on the Tables > District HR Options page, then values will not be displayed in the PEIMS drop-down fields (e.g., Sex, Ethnicity, etc.).
- TEAM ED20 (Demo) and ED25 (Demo Adj) records are automatically created when any demographic information changes are made on this tab.

Retrieve or add demographic information:

Add Emp	Add an employee record. ❑ Click **Add Emp** to add a new employee record. A blank record is displayed allowing you to begin entering data. • If the **Auto Assign Employee Number** field is selected on the Payroll or Personnel > Tables > District HR Options page, the employee is assigned the next available employee number upon saving the record. • If the **Auto Assign Employee Number** field is not selected, in the **Employee** field, type an employee number and click **Retrieve**. If the employee number is available, the following message is displayed: Click **Yes** to continue and create the record. Otherwise, click **No**.	OR	**Retrieve an existing record.**	Search for a record. Begin typing the employee name or number. As you type the data, a drop-down list of corresponding data is displayed. Select an employee and click **Retrieve**. Or, click **Directory** to perform a search in the Employees directory.

Field	Description
