# HRS2250 - Deduction Register

## Payroll > Reports > Payroll Reports > Deduction Register

The report lists all deductions generated during payroll calculations with the exception of federal income tax, FICA, and TRS. Print the report following payroll calculations to verify that the deductions were generated correctly. Use the report to locate errors prior to posting the master file, printing checks, and posting to the general ledger. Add a summarized page that shows totals for each deduction code.

When total dependent care (employee and/or employer) exceeds \$5,000 for the calendar year, an additional deduction line is displayed on the reports to separate the taxable and nontaxable parts of that deduction.
