HRS8015 - Leave Request Comparison Report

Payroll > Reports > Self-Service Reports > Leave Request Comparison Report

The report provides a leave comparison between approved Employee Access leave requests and current Human Resources leave transmittals to ensure that each leave request has an existing leave transmittal. The report includes approved leave requests without associated leave transmittals, and any approved leave transmittals with units that do not correspond to the total units of any leave transmittals associated to the leave request.

The report is sorted by pay date, approver, employee, leave type, and then leave date.

Notes:

The record is included if:

- The pay date is processed, and a leave transmittal does not exist for the leave request.
- The pay date is processed, and an unprocessed leave transmittal exists and the leave units do not correspond to the associated leave request.

The record is not included if the pay date is processed, and a processed leave transmittal exists and the leave units do not correspond to the associated leave request.
