Copy School Calendar - HRS2700

Table of Contents

Copy School Calendar - HRS2700

Personnel > Tables > Workday Calendars > Copy School Calendar

This tab allows you to reuse a previously created calendar.

Copy a school calendar:

❑ Under **Calendar Info**:

Field	Description
Frequency	Click ⌄ to select the pay frequency that you wish to copy. Only pay frequencies that have calendars are available in the drop-down list. CYR and NYR pay frequencies are included.
Calendar Code	Click ⌄ to select the calendar that you wish to copy. When you select a calendar code, the calendar information for the pay frequency is displayed below. Verify that this is the calendar you want to use.

The calendar information for a specific pay frequency is displayed. Pay frequencies that have established calendar options are displayed on the right side of the page. Pay frequencies for these calendars are denoted by a checkbox.

- A pay frequency with a checkbox outlined in red has a calendar already. If you select this pay frequency, the existing calendar is overwritten.
- A pay frequency with a plain checkbox has district options set up but no calendar.
- A pay frequency with no checkbox has no district options set up for the frequency.

❑ Click **+Add**.

Calendar Code	Type the two-character, locally assigned code (e.g., 01, A1) for the calendar.
Calendar Description	Type the description for the calendar (e.g., Administration, Bus Drivers). The field can be a maximum of 20 characters.

❑ Select the payroll frequency to which you want to copy the calendar.

Note: To copy an existing calendar from one pay frequency to another pay frequency within the same year (current or next), you do not need to insert a new row for the same calendar code. Select the frequency checkbox to which the calendar should be copied. The new **Calendar Code** and **Calendar Description** fields are disabled. The **Freq** field is cleared and a checkbox outlined in red is displayed for each pay frequency with a valid calendar.

❑ Click **Save**.

Other functions and features:

Reset	Click to reset all previously selected options to the default.
