Actual Cost - REQ3550

Purchasing > Maintenance > Actual Cost

This page is used to retrieve the receiving records for a selected requisition or purchase order and update the actual cost, which allows you to track and report the actual expenditures for each commodity code.

Retrieve a record:

Field	Description
Purchase Order Nbr	<p>Type the purchase order number to be retrieved. If the purchase order number is numeric, leading zeros are not required.</p> <p>If the purchase order or requisition number is not known, click Directory.</p> <p>Note: Only purchase order numbers with at least one received item are displayed in the Directory.</p>

Click **Retrieve**. The following purchase order details are displayed and cannot be edited. Only the **Actual Cost** field is enabled.

- **Date Received**
- **Requisition Number**
- **Item Number**
- **Item Description**
- **Commodity**
- **Quantity Received**

Actual Cost	Type the actual cost of the line item.
	<p>Note: For reporting purposes, the Cost field is available on the Purchasing > Reports > User Created Reports > Requisition Items Report.</p>

Click **Save**.
