**Purchasing > Maintenance > Receiving > Requisition**

This page is used to receive purchased goods/services. Use the packing slip to accurately update the receiving details.

Only requisitions to which you have access to receive based on your user profile in District Administration are displayed. Receiving is performed by the requisition number within the purchase order number. Purchase orders are displayed in the summary section, and associated requisitions are displayed in the detail section. Purchase orders created in the current accounting period can be received in the next accounting period.

If **Create Receiving Payables** is selected on the District Administration > Options > Purchasing/Warehouse page, a payable transaction is automatically created on the [Finance > Maintenance > Pending Payables](#) page.
