Total Rec'd to Date Unit of Issue Item Nbr Item Description **Note:** If **Blind Warehouse Receiving** is selected on the Tables > Warehouse Options page, the system will not display the quantity ordered or received to date amounts, and the system will not generate a warning if the amount received is over the amount requested.

Receive Inventory Items - BWH3100

Received Date
Warehouse > Maintenance > Receive Inventory Items

- The Back Order field indicates if an item is on back order. If the item is not on back order, the field is blank. This page is used to record the receipt from a vendor. The gain amount entered is added to the quantity at location amount for location 000000 (the central warehouse) on the Inventory Maintenance page. Only items with an item number should be recorded on this page.
- Click Save to save the changes.

Other functions and features:

Receive an inventory item:

Retrieve	Retrieve data.			
Retrieve an Existing record	The Retrieve button is also used to retrieve information from the last save. If you click Retrieve , any unsaved changes are lost.			
Requisition Nbr	Type the six-digit requisition number to be retrieved, if known.	Purchase Order	Type the six-digit number to identify the purchase order issued as a part of this requisition. This number was assigned automatically by the system at the time the requisition was initiated.	
	Leading zeros are not required. However, if alphanumeric values are entered, the field is not zero-filled.	OR
