# API Usage Report

This report will display CareerPortal API usage. Since the API has not yet been released, the report will not display any data.

This report is available for developers only.

**Basic Navigation** See [Navigation and Search](#) for more information about basic navigation and [search](#) options on the page.

**Return to Admin Tools** You can return to the [Admin Tools](#) page at any time by clicking **Admin Tools**.

**Records** Click **Records** to select the number of records to display.

Field	Description
<b>Action</b>	The name of the web method (or service) the API is requesting.
<b>Calls</b>	The number of times the method has been called. This number includes both successful and failed calls and should equal the total of <b>SuccessfulCalls</b> and <b>FailedCalls</b> combined.
<b>SuccessfulCalls</b>	The number of times the method, after being called, successfully returns a result.
<b>FailedCalls</b>	The number of times the method, after being called, failed to return a result. There can be any number of reasons a method does not return a result.
<b>MinTimeMS</b>	The fastest successful call to the method in milliseconds.
<b>MaxTimeMS</b>	The slowest successful call to the method in milliseconds.
<b>AvgTimeMS</b>	The average of successful calls to the method in milliseconds.
