Core Questions 1

Core Questions

The Core Questions page allows you to add, edit, inactivate, and search core questions. Core questions can be customized to fit your organization's need and serve as a way to standardize questions that applicant's answer according to job position. To accomplish this, core questions are associated with forms that are linked to job positions. Core questions also allow applicants to standardize the application process by pre-filling core questions on their Profile Questions page. A list of existing core questions is displayed in a grid on this page.
