Database — Sync Analysis 1

Database — Sync Analysis

Use this page to review database synchronization issues including missing tables and columns, and altered columns.

Return to Developer Tools You can return to the Developer Tools page at any time by clicking **DevelopersTools**.

Click Select DataSource to open the Select a client to compare pop-up window. Once you are connected to the database, select the following items for review.

Missing Tables
Displays missing tables.

Missing Columns
Displays missing columns.

Altered Columns
Displays altered columns.
