Apply for a Job 1

Apply for a Job

The Apply for the Job page walks you through the job application process. There are two expandable sections on this page: Position Details and Application. The Application section is expanded by default. You can open and close each expandable section by clicking on its title. Required fields are marked with a red asterisk (<fc #ff0000>*</fc>).

See CareerPortal Navigation and Search for more information on basic navigation and available search options.

Position Details and Application sections

The **Position Details** section provides the job detail information for you to review. You can expand the job detail information by clicking **Position Details**.

The **Application** section is where you will apply for the job. The information asked by an employer may vary according to need, job type, and the organization. In addition to your contact information, you may be asked for references, a resume, questions specific to the organization or job position, etc.

Apply for a job

Field	Description
Next	Click to move to the next section.
Previous	Click to move back to the previous section.

Submit your application. Your application is submitted at this point so make sure you have completed everything.

Jobs that you have applied for are available under **Job Applications Submitted** on your job dashboard.
