

Table of Contents

Requirements 1

Requirements

The Requirements page allows you to create, delete, and edit job requirements associated with specific job positions. A list of existing requirements is displayed in the grid on this page. When you post a job or when you link a job requirement to a job position, you will select a job requirement created using this page.

Sort columns

Sort columns at any time by clicking on a column's heading. Click the heading once to sort the grid information in ascending order. Click the heading again to sort the grid information in descending order.

Basic Navigation See [Navigation and Search](#) for more information about basic navigation and [search](#) options on the page.

[Return to Admin Tools](#) You can return to the [Admin Tools](#) page at any time by clicking **Admin Tools**.

Add job requirements

Job requirements are added using the **Requirement Details** window. All fields are required when adding a job requirement. Click **Records** to select the number of records to display.

- Click **Add New +** to open the **Requirement Details** window.

Fields	Description
Requirement Name	Type the job requirement's name.
Description	Type a description for the job requirement.

- Click **Save Requirement** to save the job requirement.
- Click **Cancel** to return to the previous screen.

Edit or delete requirements

Field	Description
	Open the @TITLE@ Details window. <ul style="list-style-type: none"> • Click Save @TITLE@ to save your changes. • Click Cancel to return to the previous screen.
Field	Description
	Delete the row. A confirmation message is displayed prompting you to continue. <p>OK: Delete the row.</p> <p>Cancel: Cancel and return to the previous page.</p>
