PEIMS Fall Submission - DRAFT in progress

The ASCENDER District Administration application provides program data for each collection from the ASCENDER Student system. These programs are reviewed and modified annually, per the published Texas Web-Enabled Data Standards (TWEDS), to ensure that the data extracted to the district database is as accurate as possible. The extracts provide many of the edits as defined in the TWEDS.

The PEIMS Fall submission (Submission 1) includes program data for organization and student enrollment and program data records as of (and including) the Fall snapshot date.

The extract programs create the appropriate records in the district database, taking into account the school-start window and the Fall snapshot date. The as-of-status code is automatically generated for each student record.

IMPORTANT: This guide is exclusively for information and processes related to student data for the Fall PEIMS submission. Users needing to reference information and processes related to business data for the Fall PEIMS submissions should refer to the [TSDS PEIMS Fall Submission Data for Business](#) guide.

IMPORTANT: Each LEA will have unique situations. Some of the dates, images, and examples provided in this document are for informational and instructional purposes only and may not completely represent your LEA's process.

Prerequisites

Prerequisites

Before starting the verification process, ensure the following tasks have been completed within the respective applications:

Security Administration

- Verify all roles and users are correct.

Registration

- Local Programs set up in District Profile – See [QuickGuide: Local Programs](#)
- Set up Post Secondary Certification Licensure Table
- Assign Student UID Numbers

Grade Reporting

- Clean up invalid course codes
- Set up TSDS Crosswalks

Understanding Begin and End Dates

- [Rules and Exceptions](#)

Standard Rule

- **Begin Date:** Enter the **first instructional day** the event occurs.
- **End Date:** Enter the **first instructional day after the last day** the event occurs.

Example:

A student begins attending the Band course August 12, 2025. This is the first instructional day they participated. The student later withdraws from the course. The last day they attended, or were expected to attend, the class was September 25, 2025.

Here is how these dates are entered into the system:

- **Begin Date:** Enter 8/12/2025 (The first day of attendance).
- **End Date:** Enter 9/26/2025 (The first instructional day after the last day of attendance/expectation, September 25th).

Exception: StaffSectionAssociation

- **BeginDate (E3010)** Enter the first instructional day in the current school year the staff is assigned to the section.
- **EndDate (E3020)** Enter the last instructional day the staff was assigned to the section.

NOTE: When extracted for reporting, the system automatically adds one day to this date. This reported date represents the first day after the last instructional day. **This is the only instance where the system adds days to the entered date**, as a date after the last day of the school year cannot be manually entered.

- The following fields are used to calculate **MonthlyMinutes** (E1057): **Days** (of the week), **Time Begin**, and **Time End**.
 - If **Time Begin** and **Time End** are blank, the TSDS Crosswalks are used to calculate **MonthlyMinutes** (E1057).
 - If **Time Begin** and **Time End** are not blank, the extract uses these values along with the **Days** (of the week) to calculate **MonthlyMinutes** (E1057).

Verify and Update Master Schedule Data

Verify TSDS data in the district and campus master schedules.

It is recommended to first run applicable reports and then use the Grade Reporting maintenance pages to update data as needed.

The SGR2500 report provides a count of students in each instructor's class, as well as the **Service ID** CourseCodes (formerly known as the SERVICE-ID (C022) code table) and total students.

It allows you to:

- Identify course sections with no students enrolled
- Verify several data elements within the following data entities: **Course**, **CourseOffering**, **Section**, and **StaffSectionAssociation**.

Recommendations:

- Delete any course sections that have no students enrolled and are not in use. This prevents the system from sending incorrect or unnecessary data during processing.
- For districts that use the multi-period scheduling for elementary grade reporting, each subject should have a unique period. This is recommended by the TEA for classroom linking.

The SGR0110 report provides campus-level PEIMS information for the current school year. It allows you to verify campus course information at the section level.

NOTE: Section level settings override district level settings.

REMINDER: Specific to the StaffSectionAssociation

- **BeginDate (E3010)** Enter the first instructional day in the current school year the staff is assigned to the section.
- **EndDate (E3020)** Enter the last instructional day the staff was assigned to the section.

NOTE: When extracted for reporting, the system automatically adds one day to this date. This reported date represents the first day after the last instructional day.

This is the only instance where the system adds days to the entered date, as a date after the last day of the school year cannot be manually entered.

- The following fields are used to calculate **MonthlyMinutes (E1057)**: **Days** (of the week), **Time Begin**, and **Time End**.
 - If **Time Begin** and **Time End** are blank, the TSDS Crosswalks are used to calculate **MonthlyMinutes (E1057)**.
 - If **Time Begin** and **Time End** are not blank, the extract uses these values

along with the **Days** (of the week) to calculate **MonthlyMinutes** (E1057).

Recommendations:

- For campuses with a set bell schedule, use Crosswalk **042 Responsibilities - From Campus/Period to Minutes** to assign **MonthlyMinutes** (E1057) based on the period. Only enter the **Time Begin** and **Time End** fields for the specific course sections that do not follow the standard bell schedule.
- For course sections where daily subject minutes may fluctuate, such as elementary teachers whose subject times vary, use Crosswalk **043 (Responsibilities - From Campus/Service ID to Minutes)** to assign **MonthlyMinutes** (E1057) based on the CourseCode, formerly known as SERVICE-ID.

Crosswalks are used to calculate and assign the MONTHLY-MINUTES (E1057) for staff responsibilities in the four weeks preceding the PEIMS Fall snapshot date (the last Friday in October). They are essential for ensuring minutes are reported accurately and consistently across the district.

Logic for Monthly Minutes Assignment

The system determines the Monthly Minutes (E1057) for a course section using the following hierarchy:

1. **Time Fields First:** The system first looks at the **Begin Time** and **End Time** fields for the specific course section. If these fields are populated, the minutes are calculated from this time range.
2. **043 Crosswalk:** If the **Begin Time** and **End Time** fields are blank, the system checks the 043 Crosswalk (Responsibilities – From Campus/Service ID to Minutes) to see if the CourseCode (Service ID) is set up.
3. **042 Crosswalk:** If the **CourseCode** (Service ID) is not set up on the 043 Crosswalk, the system looks at the **042 Crosswalk** (Responsibilities – From Campus/Period to Minutes).

Grade Reporting > Maintenance > Tables > TSDS Crosswalks

NOTE: Minutes for any holidays should be included.

Crosswalk Type	Purpose and Usage
042 – Responsibilities – From Campus/Period to Minutes	For campuses with a set bell schedule, use Crosswalk 042 Responsibilities – From Campus/Period to Minutes to assign MonthlyMinutes (E1057) based on the period. Only enter the Time Begin and Time End fields for the few, specific course sections that do not follow the standard bell schedule.

Crosswalk Type	Purpose and Usage
043 - Responsibilities - From Campus/Service ID to Minutes	For course sections where daily subject minutes may fluctuate, such as elementary teachers whose subject times vary, use Crosswalk 043 (Responsibilities - From Campus/Service ID to Minutes) to assign MonthlyMinutes (E1057) based on the CourseCode (formerly known as SERVICE-ID).
044 - PE Responsibilities - Campus/Crs/Sec	Use Crosswalk 044 (PE Responsibilities - Campus/Crs/Sec) to enter the number of days and minutes in which the PE teacher provides physical education instruction each week at the campus for the four weeks in October that include the last Friday in October. This is required for all teachers of record for course-sections associated with specific physical education (PE) CourseCodes.

These fields are not reported for employees with PE substitution responsibilities (i.e., employees with service IDs PES00000-PES00015).

Records are created for non-campus-based PE courses (i.e., Non Campus Based is greater than 00 in the campus master schedule) if the course is taught during semester 1 and at least one student is enrolled in the class.

This crosswalk is not used for Business-only districts whose responsibility records come from Human Resources, or if PE service IDs are not used for PE courses, or if your PE service ID courses do not have students. All other districts should use this crosswalk.

Click **Save**. A message is displayed confirming that you want to delete the row.

-

Click **OK** to delete the row.

-

Click **Cancel** not to delete the row.

Crosswalk Type:**044 PE Responsibilities - Campus/Crs/Sec****Create or update the crosswalk:**

☐ In the **Crosswalk Table** field, select *044-PE Responsibilities - Campus/Crs/Sec*.

☐ The first time you access the page, there will be rows from the previous year displayed. Click **Delete** then click **Create** to add current year courses.

A list of course-sections associated with physical education (PE) service IDs is listed. This list is predefined and cannot be changed.

The **From** column lists course-sections in the campus-course-section format, where:

- The first three digits are the campus ID.
- The next digits are the course number, which may contain between four and eight digits.
- The last two digits are the section number.
- The course-sections are for semester 1.

☐ For the Teacher of Record for each course-section listed, enter the following information for the four weeks in October that include the last Friday in October:

- In the **Day Week 1-4** fields, type the number of days in which the employee provides physical education instruction each week at the campus. Valid entries are one digit between 0-5.
- In the **Mins Week 1-4** fields, type the number of minutes the employee provides physical education instruction each week at the campus. Valid entries are up to four digits between 0-3000.

These fields are automatically populated according to the **Days** code entered on **Grade Reporting > Maintenance > Master Schedule > Campus Schedule > Section** for each course-section meeting time. The program calculates the minutes in the days from the section **Time Begin/End** and sums for each meeting time the days per week for that meeting time, then multiplies the minutes per day

for that meeting time to calculate the minutes for each week.

☐ Click **Save**.

☐ Click **Print** to print the data displayed.

☐ If new PE responsibilities records are found the next time you access the page, the **Create** button will be replaced with the **Refresh** button. Click **Refresh** to add new records to the grid.

NOTE: You cannot delete data row by row. You must click **Delete** to delete all rows on the page. Then, click **Create** to populate the page with PE course-sections. Then, you can re-enter all data.

WARNING: If you click **Delete**, all rows are deleted.

Verify and Update Current Year Student Data

It is recommended that you run applicable reports first and then use the **Registration** maintenance pages to update data where needed.

PEIMS Fall Submission

selected for the student on Maintenance > Student Enrollment > At Risk, or clears it if none are selected. The utility sets or resets only 10 of the 15 fields, as indicated below.

Only students with the **Record Status** field set to 1 (currently enrolled this campus), 2 (currently enrolled this campus and will return next year) or 3 (currently enrolled this campus, will attend new camp next year) on Maintenance > Student Enrollment > Demo1 who are under 26 years old are considered.

The following **PEIMS At-Risk criteria** fields are set by the utility:

- 1. Not promoted for one or more school years
- 2. Did not maintain avg of 70 in 2 or more subject (07-12)
- 3. Unsatisfactory performance on assessment instrument
- 5. Pregnant/parent
- 6. Placed in a DAEP (TEC37.006)
- 7. Expelled (TEC37.007)
- 10. Emergent Bilingual (EB)
- 11. Is in the custody of care of the DFPS or has been referred to DFPS
- 12. Homeless
- 16. Chronically Absent (TEC, 48.009)
- 17. 10+ Unexcused Abs/6mo (TEC 25.085/25.086)

The following **PEIMS At-Risk criteria** fields must be set manually:

- 4. Unsatisfactory performance on readiness test (PK-03)
- 8. On parole, probation, deferred prosecution, or other conditional release
- 9. Previous PEIMS dropout
- 13. Residential Placement
- 14. Incarcerated or parent/guardian has been incarcerated during the student's lifetime, per Penal Code Section 1.07
- 15. Enrolled in a designated dropout recovery school under TEC §39.0548

The **At-Risk Indicator** is not cleared when fields **4, 8, 9, 13, 14** or **15** is selected.

- This utility cannot be used in prior school years.
- You must have security rights assigned in the Security Administration application to run this utility.
- At-Risk information is from PEIMS Data Element E0919.
- Indicator 4 is not cleared unless the student has an assessment in the current or prior school year. This prevents manually entered data from being cleared for students who re-enrolled in the district.

Both sections have a table with columns for 'Delete', 'Details', and specific data fields. In the 'PK Program' section, the table shows a record for Campus 101, Entry Date 08-05-2025, and PK Program Code 02. Below the table, there are input fields for Campus (101), Entry Date (08-05-2025), Exit Date, Reason, and PK Program Code (02: PK eligible; 4 or more hrs instruct). In the 'PK Funding Source' section, the table shows a record for Fund Order 1, Fund Source 1: Tuition fees, and Begin Date 09-15-2025. Below this, there are input fields for Fund Order (1), Fund Source (1: Tuition fees), Begin Date (09-15-2025), and End Date.

Verify and Update Prior Year Leaver Data - Registration

- [Prior Year Leaver](#)

Ensure that all data is accurate for Graduates, Leavers and No Shows.

Definitions

- A **graduate** is a student who met graduation requirements by August 31.
- A **leaver** is a student who was enrolled at least one day at a Texas public school in grade level 7-12 during the prior year and did not enroll in a Texas public school the following Fall by the end of the school start window due to a specific reason defined by TEA in the PEIMS Leaver Data - Documentation Requirements for the PEIMS Leaver Data.
- A **No Show** is a student who did not withdraw last year but is not attending this year.

No Show Students

Every student who is withdrawn with Reason code 44 (i.e., No Show) will automatically be set to code 98 (i.e., Dropout) when the fall data is extracted. If this is not correct for the student, you must change the student's status code from 44 to the appropriate code once the correct code is determined.

NOTE:

- The following withdrawal codes are also set to code 98 when the fall data is extracted: 02, 04, 08, 09, 10, 14, 15, 19, 22, 30, 44, 61, 72, 79, and 84.
- The following codes are set to blank and are not extracted: 31, 33, 49, 63, 64, 80, and EP.
- Any user-defined codes that do not get set to blank will be set to code 98.
- If the student met graduation requirements by August 31, change the **Reason** code from 44 (i.e., No Show) to 01 (i.e., Graduated from a campus in this district or charter) and enter the student's graduation date. It is not necessary to create a leaver record on the Prior Year Leaver Tracking page.
