# ASCENDER TSDS New School Year Best Practice Guide

TSDS reporting is a structured submission that has certain domains and/or entities dependent upon others. The purpose of this guide is to assist local education agencies (LEA) and regional education service centers (RESC) with a successful experience.

## District Administration > TSDS > Domains & Entities

Three new functions are introduced with the 8.1200 release on *District Administration > TSDS > Domains & Entities*:

- Selection of domains and entities with dependent enforcement
- Display of Send Status
- TSDS data extraction and send on demand

### Domain & Entity Selection

ASCENDER has broken down all TSDS reportable domains and extensions into four general level. Each level is dependent upon the previous level. This means that Second Level Submission > Staff Domain selection will generate an error if all First Level Submission entries are not also selected.

In addition to the level dependencies, the following dependencies will also be enforced:

- **Enrollment** domain depends on **Student Identification and Demographic > Student**
- **Student Identification and Demographics Domain > StudentEducationOrganizationAssociation** depends on **Enrollment** domain
- **Teaching and Learning > Course Offering** depends on **Teaching and Learning > Course**
- **Teaching and Learning > Section** depends on **Teaching and Learning > CourseOffering**
- **Teaching and Learning > StaffSectionAssociation** depends on **Teaching and Learning > Section**
- **Teaching and Learning > StudentSectionAssociation** depends on **Teaching and Learning > Section**
- **Student Attendance > StudentProgramAttendanceEvent** depends on **Alternative and Supplemental Services Domain**

### Send Status

The **Send Status** button will display the number of records extracted and the percentage successful

for each entity. This can be used as a measure in the decision whether to continue adding entities to the “extract and send” process.

**NOTE:** Incomplete or low success percentage entities will likely lead to errors for dependent endpoints.

## Extract & Send Functionality

There are two ways to transmit data to TSDS – via a 6:00 pm automatic process or by clicking on the **Extract & Send** button. Both processes will utilize the selections here to determine what data to send.

## Best Practice for Sending Data

To assist with the best schedule for your LEA, please complete the following Milestones.

Gather important Milestones:

Milestone	Date	Note
Fiscal year start		
All employees updated in current year payroll		
Annual Student Data Rollover (ASDR) process		
First day of school		
No Shows process		

The following table is laid out in dependency order and the dates from the Milestone table can be used as a guide to complete the following schedule.

**NOTE:** All staff and students must have a Texas Unique ID prior to beginning this process.
