Several fields exist on both the district and campus master schedules. These fields only need to be updated in the campus master schedule if they require different values than the district master schedule.

- If the field in the campus master schedule (section record) contains data, that value is extracted.
- If the field is blank in the campus master schedule (section record), the district value is extracted.
- Under District Information, district-level settings are displayed for your information.

Change the grid view: To display the applicable fields in the grid, click the section heading below the grid. An arrow is displayed next to the heading to indicate that those fields are displayed above.
