Revised: <color #ed1c24>In Progress</color>

This document outlines key Business data that is submitted during the Public Education Information Management System (PEIMS) Fall Submission and used by the Texas Education Agency (TEA). As the year progresses, this document may be updated to include additional fields of data.

For more information about the TSDS reporting process, review the **TSDS Training Materials** webpage:

<https://www.texasstudentdatasystem.org/tsds/about/training-and-support/tsds-training-materials>

This document assumes you are familiar with the basic features of the ASCENDER Business system and have reviewed the [ASCENDER Business Overview guide](#).

Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

For a complete list of submission rules and edits, access the TSDS Web-Enabled Data Standards (**TWEDS**) website:

<https://tealprod.tea.state.tx.us/TWEDSAPI/31/0/0/Overview?IntroductionId=993>. In the top-right corner, select the appropriate **School Year** (20XX), **Collection** (PEIMS), and **Submission** (Fall) and click **Open**.

Once on the TWEDS website, in the Overview tab, you can review **Collections**, **Timelines (DUE DATES)**, and **Data Submission Responsibilities**. It is **highly important** to ensure that you review all of these details as they may change according to the **School Year**.

Additionally, you can use the other tabs on the TWEDS website to review **Data Components**, **Descriptor Tables**, **References**, **Rules**, **Change Logs**, and **Early Notices**.

Prerequisites

Review the following and take action as needed:

- ☐ Ensure applicable employees have the correct roles and permissions in ASCENDER Security Administration to access pages needed for TSDS reporting.
- ☐ Review [TSDS Best Practices for New Employee Records](#).
- ☐ Review [TSDS Best Practices for Terminated Employee Records](#).
- ☐ Review the [Responsibilities - Quick Reference Chart](#).

* The underlined text indicates the domain's submission level as it appears on the District Administration > Options > TSDS > Domains & Entities page.

I. Education Organization Domain

First Level Submission

Review TSDS Web-Enabled Data Standards for the **Education Organization** domain.

The Education Organization domain includes information about public, charter, education service center, organization, or agency.

Information from AskTED is imported into the Operational Data Store (ODS). As you send data, TEA matches the School ID (county district number) to existing district and campus information to ensure that the reported data is credited to the correct Local Education Agency (LEA).

The following steps are managed by school year.

☐ In the **Year** field, type the four-digit ending year of the desired school year (e.g., enter 2027 for the 2026–2027 school year).

☐ Click **Retrieve**.

☐ Verify the **ESC Region Number** and **ESC County District Number** are accurate. The **ESC County District Number** is the six-digit ESC county district number assigned by Texas Education Agency (TEA).

ESC County District Numbers

☐ Under **Contracted Instructional Staff**, add records as needed:

- **Campus**
- **Program Intent Code** - Identifies the cost of instruction and other services directed toward a particular need of a specific set of students. The intent (the student group toward which the instructional or other service is directed) determines the program intent code, not the demographic makeup of the students served.
- **Number of FTEs** - A standard measurement of the portion of professional contracted instructional staff expressed as a multiple of the standard workday, such as 7.7 FTEs. When calculating contracted instructional staff FTEs, the following items must be considered:
 - The percent of the day worked (the number of hours worked divided by the number of

work hours in the standard day).

- The percent of days per week worked (the number of days worked divided by 5).
- The percentage of weeks worked (the number of weeks worked divided by the number of weeks in the work year).

For example, Mrs. Jones is hired on a contracted instructional staff basis to teach the tuba to three tuba players. Her contract specifies that she will work two hours each Monday and each Friday for the entire school year. Her FTE is 0.25 (two hours worked divided by the eight-hour work day in the district) multiplied by 0.40 (two days divided by five days) multiplied by 1.0 (36 weeks worked divided by the 36-week instructional year), for a reported FTE of 0.10.

Note: For information regarding Full-Time Equivalent (FTE) calculations, please refer to the TWEDS website.

☐ Click **Save** for each year; each year is a separate record.

2. [Verify campus information/exclude non-instructional campuses from reporting.](#)

Verify campus information/exclude non-instructional campuses from reporting

[District Administration > Tables > District Information > Campus Name/Address](#)

Ensure the **Exclude from reporting to TEA** checkbox is selected for all non-instructional campuses/departments to exclude them from being reported to TEA.

The screenshot shows the 'District Administration' web application interface. The breadcrumb trail is 'Tables > District Information'. The 'Year' field is set to '2026'. The 'Campus' dropdown menu is set to '999 - 999 School'. The 'Exclude from reporting to TEA' checkbox is checked. The form fields are as follows:

DISTRICT NAME / ADDRESS		CAMPUS NAME / ADDRESS		PAYROLL FREQUENCIES		REPORTING CONTACT		SHARED SERVICES ARRANGEMENT		FUND BALANCES	
Campus: 999 - 999 School		Retrieve		Add		Delete		Print			
Campus ID:	999

Exclude from reporting to TEA:		☒									

☐ In the **Year** field, type the four-digit school year for which you want to add or retrieve data

and click **Retrieve**. The **Year** is automatically updated when the Fiscal Year Close process is completed in Finance.

☐ Retrieve each campus record and confirm that the address and phone numbers are accurate.

☐ Review the following guidelines as consideration for selecting the **Exclude from reporting to TEA** checkbox:

- Instructional campuses listed in [AskTed](#) (001, 041, 101, etc.) should **not** have the **Exclude from reporting to TEA** checkbox selected.
- Non-instructional campuses (701, 750, 999, and other campuses or departments needed for purchasing) should have **Exclude from reporting to TEA** selected.
- **Education Service Centers (ESCs)**: Exclude all campuses from TEA reporting.
- **Business-only LEAs**: Exclude all campuses from TEA reporting.

☐ Click **Save** for each campus; each campus is a separate record.

3. [Verify Shared Services Arrangements, as needed.](#)

Verify Shared Services Arrangements, as needed

[District Administration](#) > [Tables](#) > [District Information](#) > [Shared Services Arrangement](#)

☐ In the **Year** field, type the four-digit reporting year for which you want to add or retrieve data and click **Retrieve**.

☐ Under **Shared Services Arrangements**, enter all Shared Services Arrangements for which the LEA is a member or the fiscal agent. Indicate the **Shared Services Type** and **Fiscal Agent District ID**.

Note: Prior year SSA records are now maintained on the [Prior Shared Services Arrangement](#) tab.

☐ Click **Save**.

II. Staff Domain

Second Level Submission

Review TSDS Web-Enabled Data Standards for the **Staff** domain.

The Staff Domain includes general staff information for a Local Education Agency (LEA).

This section provides you with a clear view of all the Business fields included in the Staff Domain for Fall PEIMS reporting. The information is organized by where it exists in the system (application, menu, page, and tab). This will help you easily locate and correct data as needed.

Verify that the following fields are complete:

- **Staff ID/SSN**
- **Texas Unique Staff ID**
- **First, Middle, and Last Name** - It is recommended that you have a copy of the employee's Social Security card available. Enter the employee's legal name exactly as it appears on the card.
- **Generation**
- **Sex**
- **DOB**
- **Ethnicity** (if applicable)
- **Race (check all that apply; must select at least one)**

Beyond TSDS Data: It is highly recommended that the address is entered correctly to avoid possible errors.

- **Number:** Enter numbers only.
- **Street/PO Box:** Enter the street name without the residential house number. If entering a PO Box, type the entire PO Box and number. (See example in screenshot above.)

Personnel > Utilities > Mass Update > Responsibility

TIPS: Before running a mass update:

- Verify that the **School Year for PEIMS Codes** field on the Tables > District HR Options page has been updated to reflect the current school year (2027).
- Verify that responsibility records for employees who have been terminated or reassigned have an **End Date**. This prevents ended responsibilities from being copied forward.

☐ Under **Parameters**, select the appropriate parameters for the employees whose responsibility data is to be updated.

☐ Under **Copy**, in the **School Year** field:

From	Type the school year from which you want to copy responsibility records in the YYYY format.
To	Type the school to which you want to copy responsibility records in the YYYY format.

Note: The **From School Year** is the prior year and the **To School Year** is the current year.

☐ Click **Execute**. A preview report is displayed. The report only lists available responsibilities to

be copied based on the set parameters. Duplicates are not allowed.

[Review the report.](#)

Note: After reviewing the report, if you identify any discrepancies, click **Cancel**, make the necessary corrections, then return to execute and process again.

❑ Click **Process**. A message is displayed indicating that the process was completed successfully.

[Personnel > Maintenance > Staff Demo > Responsibility](#)

Note: Employees can have multiple responsibility records for the same year, provided that each record has a different **Staff Service** value.

- **Campus**
- **Co-op/SSA LEA** - Co-op staff should be reported by the fiscal agent. Type the nine-digit ID (six-digit district ID + three-digit campus ID) to identify the LEA (district and campus)

where the SSA/Co-op employees has work assignment records if other than their home district/campus. If this field is populated, then the **Campus** field should be blank and vice versa.

- **Staff Classification** - This field is previously known as **Role ID** and identifies the capacity in which a person serves.
- **ESC/SSA** - Select the code that indicates whether the staff member is a school district employee, or works at an ESC as part of an SSA or not part of an SSA. |
- **Staff Service** - Refers to the services supplied by staff.
- **SPED Student Age Range**
- **Pop Served**
- **Monthly Minutes** - The total minutes devoted to a particular service in a standard month. A standard month is the four weeks in October, including the PEIMS Fall snapshot date (last Friday in October). For example, a class taught for one hour every day would report 1,200 monthly minutes (60 minutes x 5 days x 4 weeks). This field cannot be blank, default value is 00000.
- **# of Students** (in class) - This field cannot be blank, default value is 0.
- **Begin Date**
- **End Date**- An end date is not required for the 2026 record unless the employee is terminated, no longer in the position, or the record should be excluded from the Mass Update process.
 - If an **End Date** is entered, the record will not be copied from 2026 to 2027 during the year-to-year Mass Update.
 - If the employee is continuing in the same position, create a 2027 record so it will be included in the submission.

**TIPS:**

- Responsibility records with a Staff Service that begins with SE must have **Pop Served** set to 06.
- Responsibility records for aides must have **Number of Students** set to 0.

[Personnel](#) > [Maintenance](#) > [Employment Info](#)

To ensure that an employee's TSDS Days Employed Set is calculated correctly and to prevent employees from being included on the Unaffiliated Staff list in TSDS, verify that the following fields are complete:

- Employee Status** - Staff records with a pay type of 1-3, are extracted for TSDS reporting if the **Employee Status** is 1 - *Active professional*, 2 - *Active auxiliary per*, 3 - *Retired*, 4 - *Resigned*, 5 - *On Leave*, or A - *Long Term Substitute*.
- Original Emp Date** - The original date on which the individual was employed by the LEA.
- Latest Re-Employ Date** - Complete this field if the employee worked for the LEA, left the LEA, and then returned. **Note:** Retain original data (**Original Emp Date**, **Termination Date** and **Termination Reason**).
- Termination Date** - Type the date that the termination of the employee went into effect. The termination date and reason are used to exclude the employee from TEA reporting.
- Termination Reason** - Click ▼ to select the reason the employee was terminated. The termination date and reason are used to exclude the employee from TEA reporting.
- Extract for TSDS** - Select to include the employee in TSDS Staff Domain extracts regardless of their employment status. This allows those individuals with a **Not Employed** status to be included in the TSDS extract process. This option is useful for job abandonment instances where a termination date must be entered.
- Percent Day Employed** - Type the percentage of a standard district workday for which the employee is hired to work. For an employee on contract, the percentage can be determined directly from the contract: full-time = 100, half-time = 050, and so on. For a non-contract employee, the percentage can be determined as follows. For example, the standard workday for the LEA is 7 hours. An employee is hired to work for 4 hours per day. This data element is coded as 057 for the employee because $4/7 = .571$ is rounded down. Employees such as cafeteria workers and bus drivers who work only a few hours each day should not be reported as 100 in this field. Consider the number of hours worked in relation to the standard LEA workday, not the job. The field can be a maximum

of three digits.

- **Pct Day Employed Effective Date** - Reflects the employee's start date or date of hire or the effective date of when an employee's percent day employed is changed.
- **Highest Degree**
- **Total Years Professional Experience**
- **Total Years Experience In District** (professional staff only)
- **TRA Teaching Experience** - Type the two-digit number of verifiable years of teaching experience as a classroom teacher as described in TEC §48.158. The field default is zero.
- **TRA Eligibility** - Select to indicate the local education agency (LEA) has determined the teacher (StaffClassification is 087) is employed by a school system and teaches not less than an average of four hours each day, in an academic instructional setting or a career and technology educational setting.
- **Auxiliary Role ID, Begin Date and End Date** (if applicable) - Complete this field for auxiliary staff (not aides) paid from 6129. Only one auxiliary role should be active at a time. If an employee serves in multiple auxiliary capacities, only the primary duty should be reported.

For TSDS reporting, leave the **End Date** field blank until the role officially ends. The end date should reflect the first day after the last day a non-exempt auxiliary staff was assigned to the AuxiliaryRoleId descriptor (i.e., the day after the last day the employee held the position).

Note: Professional and paraprofessional staff may also be reported with an Auxiliary Role ID if they serve the LEA in a non-professional or non-paraprofessional role. A classroom teacher (Staff Classification 087) who also drives a bus route for the school would require an Auxiliary Role ID to be reported. In this case, the employee would have at least two payroll accounting entries; one with object code 6119 and one with object code 6129.

As there may be duplication between Staff Classification and Auxiliary Role ID, the LEA must use its discretion in determining if the employee is serving in a professional or non-professional capacity.

- **Paraprofessional Certification, Begin Date and End Date** (if applicable) - For TSDS reporting, leave the **End Date** field blank until the certification expires. The end date should reflect the day after the last day a para-professional staff was certified (i.e., the day after the last day that the certification was valid). An employee should generally have only one active certification for the current year, though a recently expired certification may still be displayed.

TIPS:

- Ensure that all certifications that have ended have an **End Date**. Delete any expired certifications from previous years.
- To keep historical certification records for reference, move them to the [Personnel > Maintenance > Staff Demo > Credentials](#) tab.

Personnel > Maintenance > TSDS Days Employed Set

This page is used to keep a record of the number of days an employee has been employed for TSDS reporting purposes and manage begin/end dates if corrections are necessary.

This page only applies to employees with **Employee Status** 1, 2, 3, 4, 5, or A as listed on the [Personnel > Maintenance > Employment Info](#) page. Each record displays the percent of day employed, the TSDS number of days employed, the begin and end dates, a date timestamp indicating when the record was created, and the module within the system where the update originated. A record is created whenever the number of days employed or percent of day employed is changed. Only one record without an end date is allowed. Note that the **# of Days Employed** will be calculated each day during the automatic extract at 6 PM even if a manual extract and send is executed in District Administration.

This information is reported in the TSDS

StaffEducationOrganizationEmploymentAssociation>DaysEmployedSet and records the percent and number of days employed by the employee as well as the begin date and end date associated with the *PercentDaysEmployed* and *NumberDaysEmployed* data elements.

The TSDS Days Employed Set consists of the **Percent Day Employed** in Personnel and the **# of Days Empld** in Payroll. You can verify these days on the [Personnel > Maintenance > TSDS Days Employed Set](#) page.

- (If applicable) **Exclude Days for TEA** - If an employee has multiple jobs listed on this page, the system automatically calculates the total number of days worked across all jobs. For example, if a teacher works 187 days and has a secondary job as a bus driver for 180 days, by default, the system adds all days for a total of 367 days. This does not accurately reflect the actual number of days worked since the employee does not actually work 367 days. To ensure accurate reporting, it is recommended to only report the job with the highest number of days. For jobs with fewer days, select **Exclude Days for TEA** to prevent those days from being included in the total.

Review TSDS Web-Enabled Data Standards for the **Finance** domain.

The Finance domain includes financial information captured in accounts (both actuals and budgeted).

1. [Add crosswalks.](#)

Add crosswalks

[Finance > Tables > TSDS Crosswalks](#)

Map financial data from the LEA's set of accounts to TEA's Chart of Accounts for both the current and previous file IDs.

- Verify the TSDS crosswalks are correct.
- Verify that there are not crosswalks for the automatic crosswalks processed by ASCENDER.
- Review the **Automatic Crosswalks** section on the [Finance TSDS Crosswalk Tables](#) page.

- If a crosswalk is created on this page, it will be used and applied throughout the TSDS reporting process.
- Automatic crosswalks are applied **AFTER** crosswalks created on this page are applied.
- If you choose to use crosswalks, note that no updates are made to the Finance application. Any updates must be made manually in the Finance application.

As an example, a one-campus LEA that budgets and books expenditure records to

campuses 101 and 001 should establish a crosswalk to move expenditures from Organization code 101 to Organization code 001 since TEA will not recognize campus 101 for PEIMS reporting.

TIP: When performing a crosswalk, note that it transfers all budget or actual and payroll items from the old to the new. For example, if using *040 Budget - From Org to Org* and you move Org 101 to Org 001, all line items from Organization code 101 will be moved to Organization code 001, not just a specific line item.

The screenshot shows a web interface for setting up a crosswalk. At the top, there is a dropdown menu labeled 'Crosswalk Type:' with the selected option '040 Budget - From Org to Org'. To the right of this dropdown are two buttons: 'Retrieve' and 'Print'. Below these is a table with two columns: 'From' and 'To'. The first row in the table has '101' in the 'From' column and '001' in the 'To' column. There are empty input fields for additional rows. To the left of the table is a 'Delete' column with trash icons. At the bottom of the table, there are navigation controls: 'First', a left arrow, a dropdown showing '1 : 101', a right arrow, and 'Last'. To the right of these controls is an 'Add' button with a plus icon.

2. [Verify Budget data.](#)

Verify Budget data

Budget data is extracted from Finance for applicable funds (199, 240, 420 (Charters), and 599). The totals include entries made into the system until the end of October or accounting period 10. It is recommended that all budget amendments be entered by the PEIMS Fall Snapshot date, which is the last Friday in October.

Correct Budget and Payroll data

Use the following steps to correct budget and payroll data after accounting period 10 is closed in Finance.

[District Administration > Tables > District Information > Fall Finance TSDS Data](#)

This tab is used to retrieve and edit Fall TSDS financial data, allowing for corrections to

Budget and Payroll data in the TSDS staging tables. The staging area temporarily holds data before it is submitted to the Texas Education Agency (TEA) (i.e., promoted to the Operational Data Store (ODS)).

The data on this tab is obtained from the latest Fall extracts after period 10 is closed, incorporating all TSDS crosswalks, automatic crosswalks, and data summaries. Accounts are summarized by fund, function, object class (6100), organization, and program intent code. For instance, 199-11-6119.00-001-511000 will display as 199 11 6100 001 11. Users should cross-reference balances with the Finance application and may need to combine amounts to ensure accurate budget reporting.

Notes:

- Data cannot be duplicated. Duplicated data will receive an error upon submission.
- Enter data carefully on this tab. Incorrect or improperly formatted data may cause errors upon submission.

TSDS Extract Notes:

☐ The budget and payroll data extracts are run nightly along with the other TSDS extracts until accounting period 10 (October) is closed in Finance.

- After period 10 (October) closes, the budget and payroll data extracts are paused for the current school year.
- After period 10 (October) closes and the nightly extract is run, the Fall Finance TSDS Data tab in District Administration is enabled allowing users to begin making corrections to budget and payroll data.

☐ Although data is extracted nightly at 6:00 p.m., there may be instances where you need to send corrections before the next scheduled (nightly) extract. If any changes are made to financial (budget, actuals, payroll) data, you must first extract data in ASCENDER and then schedule a run in ASCENDER DataConnect (ADC). Complete the following steps:

1. District Administration > Options > TSDS > Domains & Entities

- Verify that the **Submission Year** is correct.
- Click **Extract**.

2. ASCENDER DataConnect (ADC)

- Schedule a run to transfer the changes to the IODS, and if applicable, to the EODS.

Budget

- ☐ Click  to select *1 - Budget*.
- ☐ Make any necessary budget corrections (such as code or amount changes) to the Budget data in the TSDS staging tables.
- ☐ Click **Save**.

Notes:

Budget Data with an ODS ID

- To delete a previously submitted record, set its amount to zero and insert a new record with the correct data. This will mark the record for deletion and resubmission.
- Account codes (rows) are validated to prevent duplicate records.

Change	Original Record	New Record
Account Code or Begin Date	Status = R - Resubmit, Action = D - Delete	Status = N - New, Action = I - Insert
Amount or End Date	Status = R - Resubmit, Action = U - Update	
Amount = 0 (zero)	Status = R - Resubmit, Action = D - Delete	

Records without an ODS ID

- Changes will not affect the **Status** or **Action** (**Status** = N - New, **Action** = I - Insert).

Payroll

- ☐ Click  to select 2 - Payroll.

The screenshot shows the 'District Administration' interface. At the top, there's a green header with 'Tables > District Information' and 'District Administration'. Below the header, there's a 'Year' field set to '2026' and 'Retrieve' and 'Save' buttons. The main section has several tabs: 'DISTRICT NAME / ADDRESS', 'CAMPUS NAME / ADDRESS', 'PAYROLL FREQUENCIES', 'REPORTING CONTACT', 'SHARED SERVICES ARRANGEMENT', 'FUND BALANCES', and 'FALL FINANCE TSDS DATA'. The 'DISTRICT NAME / ADDRESS' tab is active, and a dropdown menu is open showing '2 - Payroll' selected. Below this, there are fields for 'Fund', 'Func', 'Obj', 'Org', 'Fisc Yr', 'Pgm', and 'Unique Staff ID', each with a 'Retrieve' and 'Reset' button. At the bottom, there's a table header with columns: 'School Year', 'Unique Staff ID', 'Fund', 'Func', 'Obj', 'Org', 'Fisc Yr', 'Pgm', 'Pay Amount', 'Pay Activity', 'Begin Date', 'End Date', 'Status', and 'Action'. The table currently shows 'No Rows'.

- ☐ In the **Unique Staff ID** field, type the 10-digit unique staff ID assigned to the staff member by the Texas Education Agency and click **Retrieve**.
- ☐ Make any necessary payroll corrections (such as code or amount changes) to the Payroll data in the TSDS staging tables.
- ☐ Click **Save**.

Notes:

Payroll Data with an ODS ID

- To delete a previously submitted record, set its amount to zero and insert a new record with the correct data. This will mark the record for deletion and resubmission.
- Account codes (rows) are validated to prevent duplicate records.

Change	Original Record	New Record
Account Code or Begin Date	Status = R - Resubmit, Action = D - Delete	Status = N - New, Action = I - Insert
Amount or End Date	Status = R - Resubmit, Action = U - Update	
Amount = 0 (zero)	Status = R - Resubmit, Action = D - Delete	

Records without an ODS ID

- Changes will not affect the **Status** or **Action** (**Status** = N - New, **Action** = I - Insert).

IV. TSDS Level 1 Errors

This page is used to view and print a listing of Level 1 errors that occurred in various domains/entities when the API interface files begin processing into the TEA database.

ASCENDER does not control the content of these errors.

All TSDS Level 1 Error reports are displayed and printed in landscape orientation by default.

1. [Review/correct TSDS Level 1 Errors.](#)

Review/correct TSDS Level 1 Errors

[District Administration](#) > [Inquiry](#) > [TSDS Level 1 Errors](#)

Review TSDS Level 1 errors on a regular basis and correct data as needed. If not addressed, these errors will prevent data from flowing to the Operational Data Store (ODS).

Domain	Entity	Number of Errors
☐ Student Identification and Demographics	Student Parent Association	76
☐ Teaching and Learning	Staff Section Association	1742
☐ Enrollment	Student School Association	2
☐ Alternative and Supplemental Services	Student Title I Part A Program Association	1
☐ Student Attendance	Student School Attendance Event	1
Student Attendance	Basic Reporting Period Attendances	3
Student Attendance	Student Program Attendance Event	1

You can print various reports using the following options:

- Select the checkbox next to the domains (rows) to be included in the report and click **Print**. This prints errors associated with the selected Domain > Entity.
- Click **Extract Errors Reprint** to display the processes that completed successfully in the last extract as well as a list of errors that need to be corrected. This should be the focus for most error resolution.
- Click **Extract Prior Year Reprint** to display data that was extracted for Mid-Year PEIMS.
- Click **Extract Budget Reprint** to display Budget data most recently extracted for Fall PEIMS.
- The **Extract Payroll Reprint** button displays Payroll data most recently extracted for Fall PEIMS.

Note: If included in the report, the **Action Type** column displays the expected action of the record that was sent to the Operational Data Store (ODS):

- **I** - Insert
- **U** - Update

- **D** - Delete

V. Data Quality Tips

To easily locate a complete list of valid codes, you can copy and paste the table ID into the **Search For** field on the TWEDS website and click **Search**.
