Fall Finance TSDS Data - DA1200

District Administration > Maintenance > TSDS Reporting > Fall > Fall Finance TSDS Data

This tab is used to retrieve and edit Fall TSDS financial data, allowing for corrections to Budget and Payroll data in the TSDS staging tables. The staging area temporarily holds data before it is submitted to the Texas Education Agency (TEA) (i.e., promoted to the Operational Data Store (ODS)).

The data on this tab is obtained from the latest Fall extracts after period 10 is closed, incorporating all TSDS crosswalks, automatic crosswalks, and data summaries. Accounts are summarized by fund, function, object class (6100), organization, and program intent code. For instance, 199-11-6119.00-001-511000 will display as 199 11 6100 001 11 in the Budget entity. Users should cross-reference balances with the Finance application and may need to combine amounts to ensure accurate budget reporting.

Notes:

- Data cannot be duplicated. Duplicated data will receive an error upon submission.
- Enter data carefully on this tab. Incorrect or improperly formatted data may cause errors upon submission.

TSDS Extract Notes:

❑ The budget and payroll data extracts are run nightly along with the other TSDS extracts until accounting period 10 (October) is closed in Finance.

- After period 10 (October) closes, the budget and payroll data extracts are paused for the remainder of the current school year.
- After period 10 (October) closes and the nightly extract is run, the Fall Finance TSDS Data tab in District Administration is enabled allowing users to begin making corrections to budget and payroll data.

❑ Although data is extracted nightly at 6:00 p.m., there may be instances where you need to send corrections before the next scheduled (nightly) extract. If any changes are made to financial (budget, actuals, payroll) data, you must first extract data in ASCENDER and then schedule a run in ASCENDER DataConnect (ADC). Complete the following steps:

Navigate to the District Administration > Options > TSDS > Domains & Entities page.

- Verify that the **Submission Year** is correct.
- Click **Extract**.

Access the ASCENDER DataConnect (ADC).

- Schedule a run to transfer the changes to the IODS, and if applicable, to the EODS.

Modify a record:

Field	Description
Year	Verify that the correct reporting year is displayed. If not, type the correct four-digit reporting year for which you want to add or retrieve data and click **Retrieve**. For example, the reporting year for the 2026-2027 school year is 2027.

❑ Click ⌄ to select a the type of data to retrieve:

- *1 - Budget*
- *2 - Payroll*

To narrow your search results, you can filter data using account code components. For Payroll-specific data, you can further refine your search by using the **Unique Staff ID** field.

Account Code	Type a code for each of the account code components or click ⋮ to select a code. • **Fund** • **Func** • **Obj** • **Org** • **Fscl Yr** • **Pgm** Masked account code components (Xs) will retrieve any digit in that account code position.
Unique Staff ID	Type the 10-digit unique staff ID assigned to the staff member by the Texas Education Agency.

❑ Click **Retrieve**. The data from the selected staging tables, filtered by your specified search criteria, is displayed. You can make the necessary updates to this data.
