# Login - DA2010

**District Administration > Options > Login**

Include the short page introduction here.

## Set login preferences:

Under **Login Preferences**:

Field	Description
<b>Invalid Password Attempts</b>	Set the maximum number of times a user can incorrectly type the password before the ASCENDER system locks the user out. This number must be less than or equal to 5. If the field is set to zero, there is no limit to the number of attempts.
<b>Lockout (in minutes)</b>	Set the length, in minutes, after which a user's session will time out. This number must be greater than or equal to 15. If the field is set to zero, the time-out will not occur.
<b>Password Expiration (in days)</b>	Set the number of days before the password expires. This number must be less than or equal to 180. If the field is set to zero, the user must reset the password at each log-in.

☐ Click **Save**.
