District Administration > Tables > District Information > Prior Shared Services Arrangement

This tab is used for state reporting purposes to identify the ESC/LEA fiscal agents and the ESC and/or LEA member(s) for each type of Shared Services Arrangement (SSA) that exists among two or more ESCs and/or LEAs.

You can maintain financial information (actuals) for shared service arrangements. You can manage financial records by shared service type, fiscal agent, and fund/fiscal year. This information may be used to review programs, staff, and/or classes for funding purposes.

According to TWEDS, for each record in the PriorYearSSAOrgAssociationExt entity, there must be an PriorYearActualExt entity and SharedServiceArrangementExt entity with appropriate fund codes for the SSA financial reporting.

This data is reported during the PEIMS Mid-Year Submission. For additional guidance, review the PriorYearSSAOrgAssociationExt Entity in the C049A table on the TWEDS website.

The **Shared Services Arrangements** records (left side of the page) must be added and saved before you can add corresponding data under **Shared Services Arrangements Amounts** (right side of the page). After you save a record under **Shared Services Arrangements**, is displayed under **SSA Actuals**, which allows you to add records for that specific row under **Shared Services Arrangements Amounts** (right side of the page).
