# Assign Travel Accounts - DA5100

## District Administration > Utilities > Assign Travel Accounts

This page is used to mass assign account codes by primary campus, department code (optional), and year for employees using the travel reimbursement request feature in EmployeePortal.

After running this process, a user profile is created with the assigned account codes for each active person with the primary campus/dept on their Job Info record that matches the selection on this page.

When submitting a travel reimbursement request in EmployeePortal, employees will be able to use these account codes to indicate the budget to be charged for a travel reimbursement request.

**IMPORTANT:** If you are creating records for users by campus and department, you must select a campus, indicate the department, and click **Retrieve**. This must be done upon initial retrieval. Otherwise, select a campus and click **Retrieve**.
