District Administration > Workflow > Approval Path

This page is used to create and maintain the sequence or hierarchy of the approvers for the approval process. The order in which the approvers are listed indicates the approval sequence. You can add to or edit the approval path as needed. If a change is made to the approval path, the change will apply to all requisitions or requests that have yet to reach that specific approver.

For the approval process, approvers must exist in Security Administration, have an employee number associated with them, and exist with a current year payroll record.

Add a first approver:
