Create a Book of Help Pages

The book option on wikiHelp allows you to create a book of multiple pages (the plugin limit is approximately 80 pages per book), which you can then download and/or print. For example, these steps can be used to print all Help pages for an application, or to create a customized book containing pages you need for a training.

- On the page you want to add to the book, click the **Add to book** link. To create a book of all Help pages for an application, start with the first page of the first menu and continue adding pages in menu order.

The screenshot displays the ASCENDER District Administration interface. At the top, the ASCENDER logo and 'ELEVATING TECHNOLOGY SOLUTIONS' are visible. Below the logo, the page title 'District Administration' is shown. A green breadcrumb trail reads 'Trace: • ASCENDER Online Help • Receiving Addresses - DA1100'. On the left, a 'Table of Contents' lists various help topics, including 'Receiving Addresses - DA1100'. The main content area is titled 'Receiving Addresses - DA1100' and includes a description: 'This page is used to create a contact list of receiving addresses for the LEA. There can be multiple receiving sites at one campus and multiple addresses for a single person.' Below this, there are sections for 'View and edit a receiving address:' and 'Add a receiving address:'. A context menu is open on the right side of the page, showing options: 'Old revisions', 'Add to book', 'Copy this page', 'Export to PDF', 'Fold/unfold all', and 'Back to top'.

- Once the page has been added, the **Add to book** link changes to **Remove from book**. You can also click **Remove this page from your book** at the top of the page to remove the page.

Receiving Addresses - DA1100

District Administration > Tables > Receiving Addresses

This page is used to create a contact list of receiving addresses for the LEA. There can be multiple receiving sites at one campus and multiple addresses for a single person.

View and edit a receiving address:

A list of existing receiving address records is displayed in the grid. Click Q to view and edit the details for the selected receiving address. The details are displayed in the free-form area at the bottom of the page.

Add a receiving address:

Freight Terms - DA1210

District Administration > Tables > Freight Terms

This page is used to create freight terms indicating the transport/carrier type and payment responsibility. The freight term codes are used in the Purchasing bid process.

Create a freight term:

A list of existing freight terms is displayed in the grid.

Commodity Codes - DA1230

District Administration > Tables > Commodity Codes

This page is used to create and manage a list of commodity codes. Commodity codes allow for the grouping of "like-types" of items and the tracking of those items/purchases in both the Purchasing and Warehouse applications.

For additional information, reference the Using Commodity Codes document.

Import Commodity Codes File Layout

Retrieve a group ID:

- The ebook page is displayed with a list of the pages you currently have in the book.

Document's Title

District Admin Settings

☐ Skip Forbidden Pages

Export selection to PDF Export

- In the **Export Selection** section, type a title for your book (the title that appears is the last title you used).
- The tcc-help.net wiki does not have forbidden pages. The **Skip Forbidden Pages** selection will not do anything.
- Select either **Export selection to PDF** or **Printable version** and click **Export**.
 - Export selection to PDF** will save a copy of your pages as a PDF. The file is downloaded to a folder based on your browser settings.¹⁾
 - Printable version** generates a single HTML page comprised of all your pages. You can print or save the page using browser options.
- Return to pages by clicking the link under **Selected Pages** to remove pages individually or click **Clear Selection** to remove all pages from your book.

Use Adobe to Create Books

If you need to create a book that spans multiple applications follow these steps. You will need to use Adobe Acrobat Pro to do this.

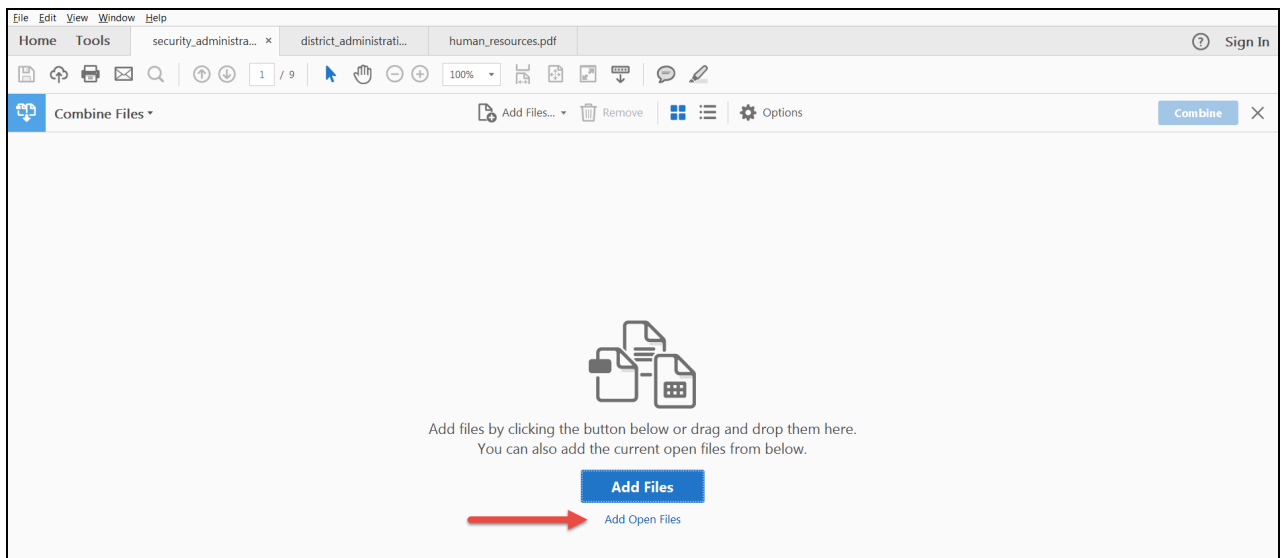

- Create multiple books using the steps above for each system (e.g., Business, District Administration, and Security Admin).
- Using Adobe Acrobat Pro open all the books you created, as well as the front and back cover, if so desired²⁾.
- Click **Tools**.

- Click **Combine Files**.

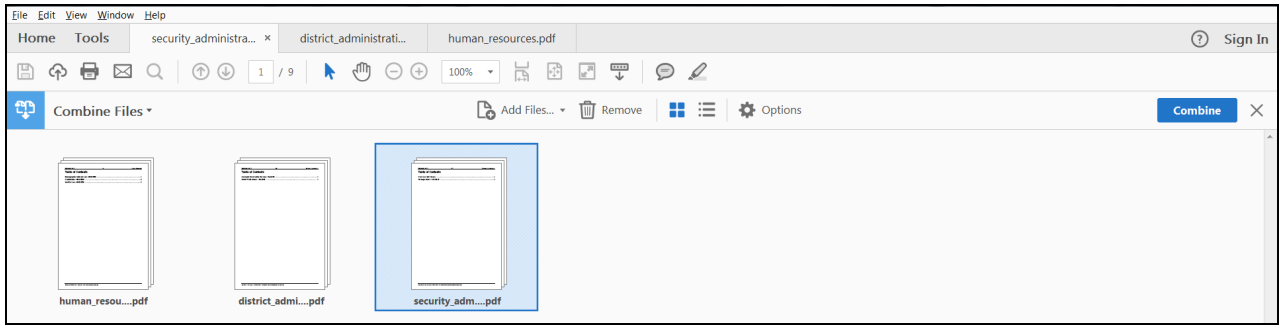

- Click **Add Open Files**.

- Click **Add Files**.

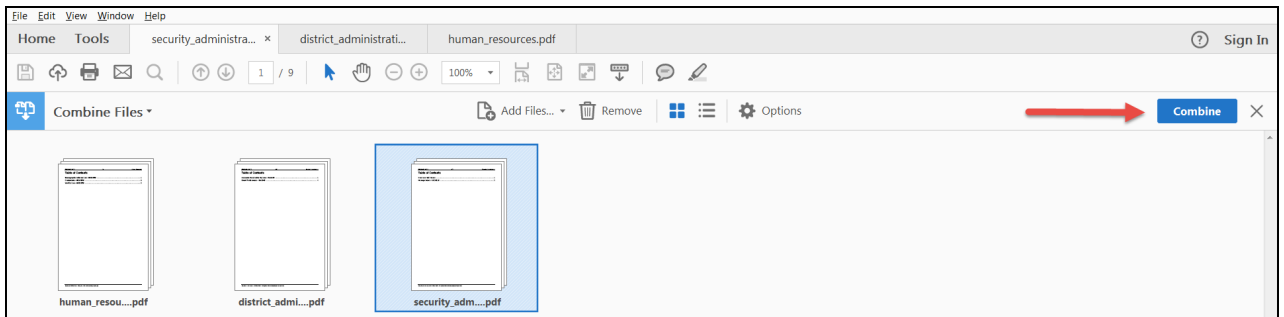

- Drag and drop the books into the order you want.

- To move individual pages, click the double arrow to expand the selection.

- Once you have ordered the book the way you want, click **Combine**.

- Under File, click **Save**.
- Choose where you want to save the book and a name for it.

1)

Saving the book as a PDF will allow you to then save it as a Word document and make any required changes to it.

2)

Covers can be found on the Printed Help page
