Employee Guide: Manage Travel

Welcome to ASCENDER EmployeePortal. This application provides you with access to various employee data inquiries and maintenance features.

EmployeePortal allows you to request reimbursement of mileage, lodging, meals, and incidentals stemming from official business travel. Additionally, you can view a summary and detailed view of travel reimbursement requests.

Your local education agency (LEA) determines the pages and data fields that can be viewed and/or edited in EmployeePortal. If you have questions, please contact your EmployeePortal administrator.

Before You Begin

Review the [ASCENDER EmployeePortal Navigation](#) page to familiarize yourself with the portal.

TIP: If you have any new notifications from EmployeePortal, the number of pending notifications is displayed in the top-right corner of the page on . Click to view the Notifications box. You can either click **Mark All As Read** to mark all notifications as read and clear all notifications or click a notification to open the Notifications page. From the Notifications page, you have the option to **Mark All As Read** or click to clear each individual notification.

- When the request is fully approved, you will receive an email message indicating that the request has been approved and issued for payment. If any approver disapproves the request,

you will receive an email message notifying you of the disapproved request. You can change and resubmit the request according to the approver's instructions, or you can delete the request.

- If your request is disapproved, you can view the comments from the approver who disapproved the request. These comments are also included in the disapproval email message.
