IMPORTANT: As of 2020, the Form W-4 was updated. Refer to the [IRS W-4 Instructions](#) for complete details about completing the W-4 fields. Also, be sure to review [Publication 15-T Federal Income Tax Withholding](#), which contains the withholding tax calculations and the [FAQs on the draft 2020 Form W-4](#) page, which contains helpful information.

Note: Due to IRS Withholding calculation changes, the **W4 Marital Status** and **Nbr of Exemptions** fields are no longer used after December 31, 2019.

Filing Status	Click  to select a filing status. <i>H Head of household</i> <i>M Married filing jointly</i> <i>S Single or Married filing separately</i>
Multi-Jobs	Select to indicate that there are multiple jobs in the household. Per IRS, complete this step if you (1) hold more than one job at a time, or (2) are married filing jointly and your spouse also works. The correct amount of withholding depends on income earned from all of these jobs.
Children under 17	Type the number of children in the household under the age of 17 as of December 31. Per IRS, including these credits will increase your paycheck (i.e., lower the amount withheld from your paycheck by \$2,000 per child) and reduce the amount of any refund you may receive when you file your tax return (i.e., lowers your tax return credit).
Other Dependents	Type the number of other dependents in the household.
Other Exemptions	Type the amount of any other exemptions that may affect your federal income tax withholding.
Other Income	Type the amount of any other income that may affect your federal income tax withholding.
Other Deductions	Type the amount of any other deductions that may affect your federal income tax withholding. Per IRS, this is useful if you expect to claim deductions other than the standard deduction and want to reduce your withholding.

Note: For **W-4 Extra withholding**, contact your Human Resources/Payroll department to set up any additional tax you want withheld each pay period.

The **IRS Lock-in Letter** field is only displayed if the IRS has determined that you do not have sufficient withholding and a Lock-in Letter has been issued and updated on your pay info record in ASCENDER. For more information about the IRS Lock-in Letter, visit the IRS website. If you have questions, contact your Human Resources/Payroll department.

Note: The number of direct deposit accounts is determined by the LEA. If the LEA only allows one direct deposit bank and one already exists, you will not be allowed to enter and save a second one unless you delete the first one. If the LEA allows zero direct deposit banks and you have one or more, the banks will remain until you make a change. Once you attempt to make a change to the bank, the system will not allow you to save the change.

Primary	Select to indicate whether the bank account is the primary account for your paycheck to be directly deposited. Only one account can be selected as the primary account.
Bank	Click ▼ to select a bank. A window opens with a list of all available bank names and their respective routing numbers. Click the routing number to select a bank, the bank name and routing number are displayed.

Bank Acct Amt	Type the amount to be deposited into the account at the bank indicated. The primary account displays a blank account amount. All secondary accounts must contain an amount.
