## EmployeePortal > Travel Reimbursement Requests

This page is used to create, edit, delete, and submit travel reimbursement requests. There are two types of travel reimbursement requests, Mileage and Extended. After a travel reimbursement request is processed by payroll, it is no longer displayed on this page.

If this page is not enabled, check with your EmployeePortal administrator as your LEA may have opted to not allow access.

If a message is available from your LEA, it is displayed in red at the top of the page.

### Employee Notes

- You can save the request and return to it at a later date, or enter a request and submit it. When the request is submitted, an email message is sent to the first approver notifying them that a request is awaiting approval.
- When the request is fully approved, you will receive an email message indicating that the request has been approved and issued for payment. If any approver disapproves the request, you will receive an email message notifying you of the disapproved request. You can change and resubmit the request according to the approver's instructions, or you can delete the request.
- If your request is disapproved, you can view the comments from the approver who disapproved the request. These comments are also included in the disapproval email message.
