External Gradebook Absences Import

Use this TxEIS record layout to import absences from third-party grade book products.

IMPORTANT:

Effective for the 2018-2019 school year: The file layout has been changed to accommodate a two-digit track. If you attempt to import a file to TxEIS with a one-digit track in the 2018-2019 school year, you will receive the “Invalid Import File” error message.

If the import file does not have T in position 82 for all D record types, the import is canceled and you will receive the “Input Record Error. Invalid Import File.” error message.

| Description | Length | Position | Notes |
|-------------|--------|----------|---|
| Record Type | 1 | 1 | D = data |
| Campus | 3 | 2-4 | |
