# ParentPortal Admin: New Student Enrollment, Online Registration, & Data Updates

## Campus: Review & Accept Data Changes

These steps are completed in TxEIS Registration.

Once a parent has a valid ParentPortal ID for an enrolled student, the parent can add a student to his ASCENDER ParentPortal account and access the student's attendance, grades, and more. If the district has enabled parents to update a student's registration data, a parent can complete annual online registration for the upcoming school year, as well as submit changes to his student's current year data from ParentPortal, such as address and telephone number changes.

As parents update data for their students, campus staff must review and approve each change.

The parent can also review, complete, and submit forms via ParentPortal. As parents review and submit forms from ParentPortal, the campus staff can monitor the status and identify students who are missing required forms.

Follow these steps to monitor and approve data changes, and identify students who are missing forms.

### Prerequisites:

- The steps in this guide must be completed in Registration by a user who has access to the pages described in these steps. Basic knowledge of the Registration application is assumed.
- For online registration changes, the district must have enabled parents to update student registration data online for the upcoming school year (i.e., the **Active Online Registration From** and **To** date fields must be set to allow parents a window of time in which to register.)
- For updates to a student's current year records, the district must have enabled parents to update student data online (i.e., the **Allow parents access to Student Data forms** field must be set to Yes.) See [District: Set Up & Enable Forms](#).

### 1. [Review submitted changes](#).

**Registration > Maintenance > Online Registration > Pending Updates**

The Pending Updates page allows you to review and approve or reject a student's pending updates received from ParentPortal. The list includes changes submitted for online registration, as well as student data change requests for the current year.

On the ASCENDER landing page, the number of students with pending data updates is displayed.

## 2. Monitor student form submission.

**Registration > Maintenance > Student Enrollment > Forms**

The Forms tab allows you to view the status of a student's forms and maintain submission dates for hand-delivered forms.

Form information is displayed differently on this tab depending on the form type.

Some forms may only require the parent to acknowledge that he has reviewed the form. Other forms require the parent to input data. Some data input by parents must be approved by campus staff in order for the change to be made to the student's record. These settings are established in ParentPortal Admin on the Form Management pages.

- If a parent acknowledges the form via ParentPortal, you can view the form data and submission date.
- If a parent submits a form change via ParentPortal, you can view the form data and status.
- If a parent submits a hard copy of a form to the campus staff, you can manually record the date on which the form was delivered.

The Forms tab is not available until you retrieve a student on the **Student Enrollment** page. For a new student, you must enter and save all required data on the **Demo1** tab before proceeding to this tab.
