## Registration > Maintenance > Student Enrollment > Forms

The Forms tab allows you to view the status of a student's forms and maintain submission dates for hand-delivered forms.

Form information is displayed differently on this tab depending on the form type.

Some forms may only require the parent to acknowledge that he has reviewed the form. Other forms require the parent to input data. Some data input by parents must be approved by campus staff in order for the change to be made to the student's record. These settings are established in ParentPortal Admin on the Form Management pages.

- If a parent acknowledges the form via ParentPortal, you can view the form data and submission date.
- If a parent submits a form change via ParentPortal, you can view the form data and status.
- If a parent submits a hard copy of a form to the campus staff, you can manually record the date on which the form was delivered.

The Forms tab is not available until you retrieve a student on the **Student Enrollment** page. For a new student, you must enter and save all required data on the **Demo1** tab before proceeding to this tab.
