A list of new student enrollment requests received from ParentPortal is displayed.

- [The list can be re-sorted.](#)

IMPORTANT: Before accepting new students, campus staff should verify that the student has not been enrolled before. Go to **Registration > Maintenance > Student Enrollment** and click **Hist Directory** to access the Historical Directory, and search for the student.

It is possible that a student was enrolled with a different ID before. For example, the student may have been enrolled previously with a state-assigned ID, but has now been enrolled with a social security number. Check each student carefully to avoid creating duplicate enrollment records.

☐ To search for a new student enrollment record, do one of the following:

Search by Name	Type the student's first and last name.
Search by Key	Type the student's key. This number is generated by ParentPortal when the parent proceeds through the new student enrollment steps.

As you begin typing the name or key, a drop-down list displays records that match the characters you have typed. From the drop-down list you can select the record.

☐ Click to view the details of a pending enrollment request.

The student's enrollment record is displayed on **Registration > Maintenance > Online Registration > New Student Enrollment**.

Registration > Maintenance > Online Registration > New Student Enrollment > Register Student

This page allows you to enroll a new student using the information that was entered by the student's parent in ParentPortal.

This initial data serves as the basis for a complete student record.

NOTE: Verify whether **Auto Assign Student ID** is set to automatic or manual assignment of student ID numbers on **Registration Maintenance > District Profile > District Information > Control Info**.
