## District: Set Up & Enable Forms

Districts should follow these steps to manage forms for New Student Enrollment, Returning Student Registration, and Student Data Maintenance, including static printable forms, customized dynamic forms, and standard forms.

### Prerequisites:

- Be sure you have considered and completed all steps in the [Overview & Before You Begin](#) list.
- You must have district-level administrative access to ASCENDER ParentPortal.
- Any static forms must be ready for upload and saved in a valid format (English and Spanish versions). All forms should be ADA compliant.

### 1. [Upload static documents.](#)

#### **ASCENDER ParentPortal Admin > Form Management > Document Upload**

This page allows you to maintain a pool of read-only static documents that once created into a static form and then added to a form group, parents can view and print as needed. These documents cannot be updated by parents online; they can be viewed, printed, completed by hand (if necessary), and returned to the campus, such as campus and district calendars, school supply lists, acknowledgement forms, or surveys. The documents may vary by district and campus.

From this page, you can upload static documents from your PC to the ParentPortal server. Once created into a static form and then added to a form group, parents will be able to access these forms from ParentPortal for online enrollment, annual online registration, and for ongoing student data maintenance.

#### **Your documents should be ADA compliant.**

You can upload documents in the following formats:

- .doc or .docx (Microsoft Word)
- .pdf (Adobe Acrobat)
- .xls or .xlsx (Microsoft Excel)

- On this page, you will only upload the documents. You will create a form for each document in a subsequent step using the **Form Creator** page.
- If you will be creating English and Spanish versions of static forms, you must upload an English and Spanish version of each document.

**NOTE:** You cannot delete a document if it is in use (i.e., added to a form).

## 2. [Edit student data fields.](#)

### ***ASCENDER ParentPortal Admin > Form Management > Form Field Management***

This page allows you to set options for the fields that will be used for New Student Enrollment, Returning Student Registration, and Student Data Maintenance forms. Examples of fields are first name, last name, middle name, and birth date.

The list of **Available Fields** is added automatically. For each field, you indicate if the field is visible and add any instructions. By default, all fields are visible and no action is required; however you can hide a field globally and/or add default instructions as needed.

Some districts allow you to select document storage (DOCSTOR\_) fields which allow parents to upload supporting registration forms (immunization record, birth certificate, etc.).

**NOTE:** On this page you will set options for the fields. You will add the fields to a form in a subsequent step.

### 3. [Create a form](#).

#### ***ASCENDER ParentPortal Admin > Form Management > Form Creator***

The Form Creator allows you to create new forms, as well as delete and edit existing forms.

Two types of forms can be created:

- **Static forms** can be created using the static documents you have already uploaded.
- **Dynamic forms** can be created using the fields you selected in previous steps.

**NOTE:** A form must be added to a group in order to be accessible to parents. You will add the form to a group in a subsequent step.

The screenshot shows the 'Form Creator' interface. On the left, there's a sidebar with a list of forms. Under 'Active Forms', there are 'Static Forms' (Supply list, Testing static form instructions) and 'Dynamic Forms' (Contacts, New Student Address, New Student Contacts, New Student Enrollment, Registration). Each dynamic form has a 'Fields' count. Under 'Archived Forms', there are no forms listed. The main area shows the 'Edit Form' modal. It has a 'Copy Form' button in the top right. The form fields are: 'Form Name' (text input), 'Campus' (dropdown), 'Form Instructions' (text area), 'Visible' (radio buttons for Yes/No), and 'Archived' (checkbox). A 'Save' button is in the bottom right.

On the left side of the page, any existing forms are listed.

- **Active Forms** are listed first, and **Archived Forms** are listed below active forms.

- Click to hide **Active Forms** or **Archived Forms**.

- Click to re-display **Active Forms** or **Archived Forms**.

- Forms are automatically grouped by form type (**Static** first, then **Dynamic**).

Forms that have an uploaded document attached are listed under **Static**.

Forms that do not have an uploaded document attached are listed under **Dynamic**.

- Under **Active Forms - Dynamic**, three 'New Student' forms are included by default:

- New Student Enrollment
- New Student Contacts
- New Student Address

The following forms are also included by default:

- Contacts
- Registration

- **Fields: #** indicates the number of fields that have been added to a dynamic form. Static forms do not have fields.

- Hover over the form and click the preview icon to [preview the form](#).

The form opens in a pop-up window or different tab allowing you to view the form as it will be displayed to parents in ParentPortal. In the preview window, data cannot be edited or saved.

## Create a new form:

1. Create a static form using an uploaded document.

If you uploaded any documents on [Document Upload](#), you must create a form with each document in order to make it accessible to parents. If you have English and Spanish versions of documents, you must upload each document individually.

The screenshot shows the 'Form Creator' interface. On the left, there is a sidebar with a green '+ Add Form' button at the top. Below it, there is a section titled 'Active Forms' with a dropdown arrow. Under 'Active Forms', there are two categories: 'Static Forms' and 'Dynamic Forms'. Under 'Static Forms', there are three items: 'Supply list', 'Testing static form instructions', and 'Contacts'. Under 'Dynamic Forms', there is one item: 'Contacts'. The main area of the interface is titled 'Edit Form' and contains a 'Copy Form' button in the top right corner. Below the 'Copy Form' button, there is a 'Language:' dropdown menu set to 'English'. Below the 'Language' dropdown, there are three input fields: 'Form Name:', 'Campus:', and 'Form Instructions:'. The 'Form Name' and 'Campus' fields are empty, and the 'Form Instructions' field is partially visible.

## Form field edits

- New Student Enrollment

These forms cannot be deleted or renamed; however, you can modify some of the default settings for each form column. See the **Create/edit a dynamic form using data fields** section for more details.

☐ You can add a variety of elements to your form.

- Drag the element from the right to the blank area in the middle.
- You can drag and drop the elements to re-position them within the form.
- Click **Preview Form** any time to see how the form will look to parents.

The following two options allow you to provide headings and instructions on the form.

<b>Header</b>	<p>Select to add a heading, up to 50 characters.</p> <p>Example:</p> <div>PTA Participation Form</div>
---------------	--

<b>Paragraph</b>	<p>Select to provide one or more sentences in the form, such as instructions, up to 1000 characters.</p> <p>Example:</p> <div> <div>PTA Participation Form</div> <div>Please complete this form by the end of the first week of school.</div> </div>
------------------	--

The following question format types refer to the answer you are soliciting from the parent.

<b>Date Field</b>	<p>The parent will be asked to type a date or select a date from a calendar widget.</p> <p>Example:</p> <div> <div>What date can you begin?</div> <div>Begin Date</div> <div>mm/dd/yyyy</div> </div>
<b>Number Field</b>	<p>The parent will be asked to enter a number, such as a phone number, street number, or quantity.</p> <p>Example:</p> <div> <div>How many times per year</div> <div>Number</div> <div>1</div> </div>
<b>Radio button</b>	<p>The parent will be asked to select one of several options (multiple choice, one answer).</p> <p>Example:</p> <div> <div>Can you participate in PTA this year?</div> <div> <input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> Maybe </div> </div>
<b>Dropdown-Multiple Choice</b>	<p>The parent will be asked to select an option from a drop-down list (one or multiple selections).</p> <p>Example:</p> <div> <div>What is the best time of year for you to participate?</div> <div> <div>Fall</div> <div>Fall</div> <div>Winter</div> <div>Spring</div> <div>Summer</div> </div> </div>
<b>Text Field</b>	<p>The parent will be asked to enter a few words or less. You can specify the maximum number of characters the parent can enter.</p> <p>Example:</p> <div> <div>Type up to 100 characters.</div> <div>What are you interested in helping with?</div> </div>

<b>Text Area</b>	<p>The parent will be asked to enter a text response that may require more than a few words. You can specify the maximum number of characters the parent can enter.</p> <p>Example:</p>  <p>The screenshot shows a text input field with the placeholder text "Please describe your previous PTA experience." A hand cursor is hovering over a question mark icon next to the field. A tooltip above the icon says "You can type up to 1000 characters." The field has a close button (X) in the top right corner.</p>
------------------	--

All question format types allow the following properties to be set:

**NOTE:** For *Spanish* forms, provide this information in Spanish.

**TIP:** Be sure to add questions to the custom form that help identify the student that the information is being gathered for (e.g., What is your student's first name? What is your student's last name? Grade Level? What school does your child attend? (multiple choice)). The form results do not automatically provide default information such as first name, last name, grade level, campus.

<b>Required</b>	Select if parents are required to answer this question.
<b>Label</b>	<p>Type the question as you want it to appear in ParentPortal.</p> <p><b>NOTE:</b> Labels should be different for each field on individual forms. This text is for internal use when viewing custom form data.</p>
<b>Tool Tip</b>	Type further instructions for the question if needed. This will be displayed when a parent hovers over a question mark icon (?) next to the field.
<b>Placeholder Text</b>	Type any text that you want to appear in the field, such as a sample answer or guidance. For example, in an email field, you may type <i>name@email.com</i> . The parent's actual answer will overwrite any placeholder text. For <b>Date Field</b> , the placeholder text is always mm/dd/yyyy.

The following properties depend on the type of question format type selected:

**NOTE:** For *Spanish* forms, provide this information in Spanish.

Property	Question Type(s)	Description
<b>Size</b>	Header	Select the font size for the header.

**Review enrollment requests:**

As students are enrolled online in ParentPortal, an administrator must review each enrollment request, create a record for each registered student, and assign a ParentPortal ID to each student.

See the following guides:

- [Parent: Enroll New Student](#)
- [Campus: Accept Student & Issue ID](#)

**Review student demographic change requests and form submission:**

As parents update data for their students and/or complete Returning Student Registration, campus staff must review and approve each data change. As parents submit data and forms from ParentPortal, the campus staff can monitor the status and identify students who are missing required forms.

See the following guides:

- [Parent: Add/Register Student](#)
- [Parent: Maintain Student Data](#)
- [Campus: Review & Accept Data Changes](#)

**View form usage:**

- **Form Management > Form Usage > Usage Statistics** - Displays information about form usage across the district or campus, or for a specific parent. Archived forms are not included in these counts.
- **Form Management > Form Usage > Individual Form Information** - Displays data that is collected when a parent makes changes online to a student's registration information or accepts the data that is currently stored in the registration tables. You can retrieve and delete data for a specific form for the entire campus or district, as well as by parent.
