ParentPortal Admin: Enrollment, Registration, and Data Updates

Parent: Add/Register Student

With a ParentPortal ID, the parent can add the student to his ASCENDER ParentPortal account and complete Returning Student Registration during the registration window.

Prerequisites:

- This guide assumes that several required steps have already been performed by the district to enable Returning Student Registration and/or Student Data Maintenance at the campus. See [District: Set Up & Enable Forms](#).
- This guide also assumes that:
 - The student is enrolled in the district.
 - The parent's email address for the student is verified via ParentPortal. *

* A parent must have already created a ParentPortal account AND verified his/her email address. (Verifying the email address can be done during the creation of a new account or for an existing account on ParentPortal > My Account (**Email Address**)). **NOTE:** The parent's email address **MUST** match the **E-mail** field on Registration > Maintenance > Student Enrollment > Contact for a contact selected as **Parent/Guardian**.

* If **Guardian Verified** is selected on Registration > Maintenance > Student Enrollment > Contacts, and the email address for the ParentPortal account matches the email address for that guardian on the Contacts tab, the parent can complete Returning Student Registration and Student Data Maintenance. This workaround allows parents access even if they do not have a valid email address.

Once you receive the ParentPortal ID:

1. [Add the student to your ParentPortal account](#).

ASCENDER ParentPortal > My Account

If you are continuing from the previous step, the My Account page is displayed. Otherwise, log on and select My Account from the menu.

- ☐ From the My Account page, click **Add or Remove Student**. (This step is not necessary if you clicked **Add an Already Enrolled Student to My Account** on the pop-up window.)
- ☐ Add the following information under **Add Student to ParentPortal**.

ParentPortal ID	Type the ParentPortal ID provided by the student's campus. If you do not have this ID, you must contact the campus to get the ID. You cannot add a student without entering a valid student portal ID. The ID is case sensitive and must be entered exactly as it appears (example: qbQgk3qAs2z).
Birth Date	Type the student's complete birth date. The date entered here must match the birth date in the student's record at the campus. You cannot continue without entering the correct birth date.

- ☐ Click **Add**.

If your student was successfully added to your account, his name will appear on the page. You will now be able to access your student's data.

During the Registration window:

Edit Data:

☐ To update data you already entered, return to the form, type over existing data, and submit the form again.

2. [Monitor pending data changes.](#)

Pending Changes:

Dynamic Forms:

Until the change is approved by the campus, both the previous and new data are displayed, and an asterisk is displayed next to the fields to indicate that the change is pending.

If the administrator rejects a change for a dynamic form field, a message will be displayed next to the field indicating the reason for the rejection.

The message is cleared once you change the field and resubmit.

Standard Forms:

Until the change is approved by the campus, the **Show Changed Values** button appears on the form allowing you to toggle between viewing the previous and new values.

☐ Click **Show Changed Values** to view the previous data.

The changed data is highlighted and reflects the most recent change. Click **Show New Values** to return.

If you edit a pending field, your most recent change will overwrite the former pending change. The campus staff will approve the most recent change.

What Happens Next?

All data changes submitted via ParentPortal must be reviewed by an administrator before the student's record is updated.

See [Campus: Review & Accept Data Changes](#).

- For a dynamic form, each request is approved or rejected individually. For example, if you update your phone and address, the campus may approve the phone number change, but may require proof of residence before an address change is approved.
- For a standard form, the form is accepted or rejected as a whole.

If campus staff rejects a submitted change, you will be notified by email. The email message should inform you why a particular change was rejected and what to do. Contact the student's campus for more information.
