Terminology:

- **New Student Enrollment** - The process of enrolling a student in the district for the first time in the current year.
- **Returning Student Registration** - The annual registration of returning students, including

review and updates to student records such as demographic data updates and standard forms.

- **Uploaded documents** cannot be updated online by parents; they can be viewed, printed, completed by hand, and returned to the campus. Uploaded documents forms will vary by campus and district, and can be delivered in various formats, such as Microsoft Word, PDF, spreadsheet, etc. Calendars are an example of static documents. **Any documents you upload should be ADA compliant.**
- **Dynamic forms** are presented online and can be completed and submitted online. These forms may include student online registration and demographic updates, as well as document attachment fields and uploads. Dynamic forms are built from a list of available fields. The list of available fields can be found later in the document.
- **Standard forms** are predefined district-level forms that are common throughout Texas. The forms cannot be edited, but you can determine whether or not they are available to parents by including (or excluding) them from groups. Most forms are submitted annually; the Home Language Survey only needs to be submitted once during the student's lifetime enrollment in the district.

maintains general education records which are available to the parent, guardian, or person standing in lawful control of the student under a court order. Both parents/guardians have access to the records unless the school is in possession of a court order limiting access.

Federal law provides that student "educational records" are confidential. School records are defined as being directly related to a student and maintained by the school including, but not limited to: attendance, grades, discipline, test scores, health and immunization, and psychological or counseling records. Directory information is **not** confidential under FERPA.

Certain information about district students is considered directory information and will be released to anyone who follows the procedures for requesting the information unless the parent or guardian objects to the release of the directory information about the student. If you do not want to disclose directory information from your child's education records without your prior written consent, you must notify the district in writing by the tenth (10th) day of the school year.

1. Student directory information is available to the public unless the parent/guardian restricts the release of the information. According to the Texas Public Information Act (TPIA), must release directory information promptly upon request and may not ask requestors the reason for the requested information. Parents/guardians have the right to restrict the release of directory information, but must do so in writing within the first ten (10) days of the school year or enrollment or see number 4 below.
2. Parents/guardians may alter their choice regarding directory information at any time by completing and submitting the Student Directory Release form found in the list on the left of this webpage to their child's school. Decisions regarding directory information will remain until a subsequent written request is made to alter the previous decision.
3. Parents with a Parent Portal account may review their child's privacy status and make changes if wanted. Privacy codes may also be changed any time by completing a Student Directory Information Release form (found in the list on the left of this webpage) and submitting it to their child's school.
4. Schools must notify parents and eligible students of their FERPA rights annually. In addition to this form, FERPA information is found in the Student/Parent Handbook available in both English and Spanish online at the district website or a paper copy, by request, from your child's school.

Determine who will be responsible for managing the tasks:

The Form Management setup steps must be completed by a user with a district admin login for ASCENDER ParentPortal. These setup steps cover New Student Enrollment, Returning Student Registration, and Student Data Maintenance.

Campus tasks such as enrolling students and accepting data changes must be completed by a user with access to the applicable pages in ASCENDER Registration. This user must have a role ID with appropriate access to necessary campuses and the following ASCENDER Registration pages:

New Student Enrollment:

- Registration > Maintenance > Online Registration > New Student Enrollment
- Registration > Maintenance > Parent Portal > Letters > Print > Letter Criteria
- Registration > Maintenance > Parent Portal > Letters > Print > Print Letters
- Registration > Maintenance > Student Enrollment > Forms (Be sure this tab is enabled in Security Admin.)

Returning Student Registration and Student Data Maintenance:

- Registration > Maintenance > Student Enrollment > Forms (Be sure this tab is enabled in Security Admin.)
- Registration > Maintenance > Online Registration > Register Student
- Registration > Maintenance > Online Registration > Pending Updates
- Registration > Reports > Registration Reports > Student > SRG0700 - Student Missing Forms
- Registration > Reports > Registration Reports > Student > SRG0710 - Standard Forms (Home Language Survey)
- Registration > Reports > Registration Reports > Student > SRG0720 - Online Registration Forms Related Reports
- Registration > Reports > Registration Reports > Student > SRG0730 - Percentage of Forms Submitted per Campus
- Registration > Reports > Registration Reports > Withdrawal > SRG2300 - Student Information Request

Planning Ahead

During the planning phase, contact your regional service center for assistance in developing your forms.

-
- Discuss how your campus and district will implement New Student Enrollment (method and location).
 - What method will you be using (CAPTCHA or email verification)?
 - Where will you be hosting the enrollment event (campus, home, during a Kinder Roundup event or open house, etc.)

 - Determine who will be responsible for completing the form management setup and ongoing maintenance. It is recommended that 1 or 2 staff persons set up and maintain online forms.

 - Review all of the district's current registration documents, and compare them to the available forms.
 - Determine whether static forms are needed, and which built-in dynamic and standard forms will be used.
 - Make changes to built-in forms as needed.
 - Determine if custom forms are needed using district-created questions.
 - Contact your service center consultant for assistance with individual situations.

 - Develop a plan to explain how the returning student registration process will work.

 - It is recommended that you communicate in advance to parents that they need to verify that their ASCENDER ParentPortal account and email address are current. Recommendations:
 - Send a letter to parents (or use messaging system) to notify them that Returning Student Registration will be available on xx/xx/xxx (or during a particular event). Example: The letter can be created from ASCENDER Registration > Reports > Create Registration Report. Select the student contact fields, create the report, and then filter the report by email and populate a mail merge with an electronic form template.
 - Enable online student data updates before the Returning Student Registration event. This will give parents an opportunity and a reason to log on to ASCENDER ParentPortal, which may assist districts in reconciling ParentPortal account issues.
 - **NOTE:** Registration > Maintenance > Student Enrollment > Contact: The **Email** field for contacts marked as **Parent/Guardian** must match for ALL students associated with the ParentPortal account in order for Registration features to be activated for the parent. This email address must also be the address entered on the parent's ParentPortal account and it must be validated.

 - Because custom instructions cannot be added to standard forms, consider creating a static form that is listed at the beginning of the standard forms which provides any instructions or additional information you would like to communicate to the parent before beginning the registration process.

 - Consider whether you need to have translators available for any enrollment events.

Troubleshooting Tools

The **Guardian Verified** field on Registration > Maintenance > Student Enrollment > Contacts can be used to allow verification of ParentPortal accounts for parents who do not have access to a valid email address.

If **Guardian Verified** is selected, the contact's email address can immediately be matched to the email address entered by the parent when registering for an ASCENDER ParentPortal account. If the two addresses match, the contact can complete online registration and update the student's data. This allows you to bypass the normal email verification process for short-term situations where the normal email address verification process cannot be completed.

Allow Campus Admins to View All District Students

Indicate if campus-level administrative users can see all students in the district.

For example, if a parent has two students - one that the campus administrator should be able to see, and one that he should not be able to see, the campus administrator can impersonate that parent, but only students at his campus are displayed.

District: Set Up & Enable Forms

Districts should follow these steps to manage forms for New Student Enrollment, Returning Student Registration, and Student Data Maintenance, including static printable forms, customized dynamic forms, and standard forms.

Prerequisites:

- Be sure you have considered and completed all steps in the [Overview & Before You Begin](#) list.
- You must have district-level administrative access to ASCENDER ParentPortal.
- Any static forms must be ready for upload and saved in a valid format (English and Spanish versions). All forms should be ADA compliant.

1. [Upload static documents.](#)

ASCENDER ParentPortal Admin > Form Management > Document Upload

This page allows you to maintain a pool of read-only static documents that once created into a static form and then added to a form group, parents can view and print as needed. These documents cannot be updated by parents online; they can be viewed, printed, completed by hand (if necessary), and returned to the campus, such as campus and district calendars, school supply lists, acknowledgement forms, or surveys. The documents may vary by district and campus.

From this page, you can upload static documents from your PC to the ParentPortal server. Once created into a static form and then added to a form group, parents will be able to access these forms from ParentPortal for online enrollment, annual online registration, and for ongoing student data maintenance.

Your documents should be ADA compliant.

You can upload documents in the following formats:

- .doc or .docx (Microsoft Word)
- .pdf (Adobe Acrobat)
- .xls or .xlsx (Microsoft Excel)

- On this page, you will only upload the documents. You will create a form for each document in a subsequent step using the **Form Creator** page.
- If you will be creating English and Spanish versions of static forms, you must upload an English and Spanish version of each document.

Delete a document:

- Under **Uploaded Documents**, click **Delete** for the document you want to delete.

NOTE: You cannot delete a document if it is in use (i.e., added to a form).

2. Edit student data fields.

ASCENDER ParentPortal Admin > Form Management > Form Field Management

This page allows you to set options for the fields that will be used for New Student Enrollment, Returning Student Registration, and Student Data Maintenance forms. Examples of fields are first name, last name, middle name, and birth date.

The list of **Available Fields** is added automatically. For each field, you indicate if the field is visible and add any instructions. By default, all fields are visible and no action is required; however you can hide a field globally and/or add default instructions as needed.

Some districts allow you to select document storage (DOCSTOR_) fields which allow parents to upload supporting registration forms (immunization record, birth certificate, etc.).

NOTE: On this page you will set options for the fields. You will add the fields to a form in a subsequent step.

ASCENDER ParentPortal Admin > Form Management > Form Creator

The Form Creator allows you to create new forms, as well as delete and edit existing forms.

Two types of forms can be created:

- **Static forms** can be created using the static documents you have already uploaded.
- **Dynamic forms** can be created using the fields you selected in previous steps.

NOTE: A form must be added to a group in order to be accessible to parents. You will add the form to a group in a subsequent step.

The screenshot displays the 'Form Creator' interface. On the left, a sidebar lists forms under four categories: 'Active Forms' (with a downward arrow), 'Static Forms' (containing 'Supply list' and 'Testing static form instructions'), 'Dynamic Forms' (containing 'Contacts' with 40 fields, 'New Student Address' with 16 fields, 'New Student Contacts' with 40 fields, 'New Student Enrollment' with 59 fields, and 'Registration' with 25 fields), and 'Archived Forms' (with an upward arrow). The main area is titled 'Edit Form' and includes a 'Copy Form' button. It features a 'Language' dropdown set to 'English', a 'Form Name' text input, a 'Campus' dropdown, a 'Form Instructions' text area, 'Visible' radio buttons for 'Yes' and 'No', and an 'Archived' checkbox. A 'Save' button is located at the bottom right.

- Type the new form name and click **Save**.

The new form is now displayed on the **Active Forms** list and can be modified as needed.

What Happens Next?

- Once the campus has accepted the enrollment of your student, the campus will issue you a unique ParentPortal ID for each student allowing you to add to student to your ParentPortal account.
- See [Parent: Add/Register Student](#).

Campus: Accept Student & Issue ParentPortal ID

These steps are completed in ASCENDER Registration.

As students are enrolled in the district via ASCENDER ParentPortal, administrators must review and accept each enrollment request, monitor forms and documents submitted by parents, complete the student's enrollment and assign a student ID, and provide each student's parent with a ParentPortal ID.

Prerequisites:

- The steps in this guide must be completed in Registration by a user who has access to those pages. Basic knowledge of the Registration application is assumed.
- Students must be enrolled in the district via New Student Enrollment in ParentPortal. See [Parent: Enroll New Student](#).

1. Review enrollment request and assign ID.

Registration > Maintenance > Online Registration > New Student Enrollment

This page allows you to review pending new student enrollment requests received from ParentPortal.

As students are enrolled online in ParentPortal, an administrator must review each enrollment request and create a record for each registered student.

A list of new student enrollment requests received from ParentPortal is displayed.

- [The list can be re-sorted.](#)

IMPORTANT: Before accepting new students, campus staff should verify that the student has not been enrolled before. Go to **Registration > Maintenance > Student Enrollment** and click **Hist Directory** to access the Historical Directory, and search for the student.

It is possible that a student was enrolled with a different ID before. For example, the student may have been enrolled previously with a state-assigned ID, but has now been enrolled with a social security number. Check each student carefully to avoid creating duplicate enrollment records.

- To search for a new student enrollment record, do one of the following:

Search by Name	Type the student's first and last name.
Search by Key	Type the student's key. This number is generated by ParentPortal when the parent proceeds through the new student enrollment steps.

As you begin typing the name or key, a drop-down list displays records that match the characters you have typed. From the drop-down list you can select the record.

Click  to view the details of a pending enrollment request.

The student's enrollment record is displayed on **Registration > Maintenance > Online Registration > New Student Enrollment**.

Registration > Maintenance > Online Registration > New Student Enrollment > Register Student

This page allows you to enroll a new student using the information that was entered by the student's parent in ParentPortal.

This initial data serves as the basis for a complete student record.

Parent: Add/Register Student

With a ParentPortal ID, the parent can add the student to his ASCENDER ParentPortal account and complete Returning Student Registration during the registration window.

Prerequisites:

- This guide assumes that several required steps have already been performed by the district to enable Returning Student Registration and/or Student Data Maintenance at the campus. See [District: Set Up & Enable Forms](#).
- This guide also assumes that:
 - The student is enrolled in the district.
 - The parent's email address for the student is verified via ParentPortal. *

* A parent must have already created a ParentPortal account AND verified his/her email address. (Verifying the email address can be done during the creation of a new account or for an existing account on ParentPortal > My Account (**Email Address**)). **NOTE:** The parent's email address **MUST** match the **E-mail** field on Registration > Maintenance > Student Enrollment > Contact for a contact selected as **Parent/Guardian**.

* If **Guardian Verified** is selected on Registration > Maintenance > Student Enrollment > Contacts, and the email address for the ParentPortal account matches the email address for that guardian on the Contacts tab, the parent can complete Returning Student Registration and Student Data Maintenance. This workaround allows parents access even if they do not have a valid email address.

Once you receive the ParentPortal ID:

1. [Add the student to your ParentPortal account](#).

ASCENDER ParentPortal > My Account

If you are continuing from the previous step, the My Account page is displayed. Otherwise, log on and select My Account from the menu.

From the My Account page, click **Add or Remove Student**. (This step is not necessary if you clicked **Add an Already Enrolled Student to My Account** on the pop-up window.)

Add the following information under **Add Student to ParentPortal**.

ParentPortal ID	Type the ParentPortal ID provided by the student's campus. If you do not have this ID, you must contact the campus to get the ID. You cannot add a student without entering a valid student portal ID. The ID is case sensitive and must be entered exactly as it appears (example: qbQgk3qAs2z).
Birth Date	Type the student's complete birth date. The date entered here must match the birth date in the student's record at the campus. You cannot continue without entering the correct birth date.

Click **Add**.

If your student was successfully added to your account, his name will appear on the page. You will now be able to access your student's data.

During the Registration window:

1. [Register for the upcoming school year.](#)

ASCENDER ParentPortal > Summary

During the annual online registration window:

You can easily see your student's progress in the registration process and access the page where you can complete the forms.

If your student's registration is in progress, a pop-up window opens from this page.

Click **Resume Registration** to continue the registration process.

Or, click  to close the pop-up window and continue registration later.

Once you have completed registration, the pop-up window will no longer appear.

NOTE: On the Summary page, the **Registration** button will be red, yellow, or green depending on how far along you are in the process.

- The information is green if all forms are completed (i.e., 100%).

- The information is yellow if most of the forms are completed (i.e., 50%-99%).

- The information is red if fewer than half of the forms are completed (i.e., 0%-49%).

- The card is highlighted and has a check mark for the selected student.

- To begin or resume the registration process, click **Resume Registration** on the pop-up window, or click the **Registration** button on the student's card.

The [Registration](#) page opens.

□ Click **Start Registration**.

The first form in the list opens on the right side of the page.

Depending on the form type and district requirements, a form will require one of two actions:

- View only or download
 - Review and update
- **View only or download:** View the form and acknowledge that you have viewed the form. There is no data to enter.
 - For a static form, click **Download Attached Document** to open, save, and/or print the form.
 - For a standard form, the form automatically opens on the right side of the page.
 - By clicking **Next Form**, you are confirming that you viewed the form.
 - **Review and update:** Review existing data. Add or update data as needed.
 - For a dynamic form, add or change data. Type over the existing data with new data where applicable.
 - For contact forms, all of the student's contacts are listed at the top of the form. Click the contact name to update information for that contact. Click **Add Contact** to add a new contact.

The screenshot shows a web interface for managing contacts. At the top, there is a header with a folder icon and the text 'Contacts'. Below this, there is a list of contacts. The first contact is 'BADILLO, VALENCIA NASHAY', which is highlighted with an orange border. To the right of this list is an orange button labeled 'Add Contact'. Below the list, there are three input fields for contact information: 'Contact: First Name' with the value 'VALENCIA', 'Contact: Middle Name' with the value 'NASHAY', and 'Contact: Last Name' with the value 'BADILLO'.

- If a field contains the **Document** button, you can click the button to upload a file related to online enrollment, such as a birth certificate, driver license, immunization record, or proof of residency.
- Texas standard forms must be re-submitted each year. All data must be re-entered.

□ Click **Next Form**.

The next form in the list is displayed on the right.

Continue reviewing forms and clicking **Next Form** until you have reviewed and updated all forms.

- If you are not ready to complete a form, click **Save Form** to save any data entered so far.
- If you leave ParentPortal before finishing registration updates, a **Resume Registration** button is displayed allowing you to continue where you left off.
- The list on the left side of the page displays **Pending** or **Complete**, indicating the status of the form.

When you have viewed and entered all required data on all required forms, the **Finish and Submit to District** button is displayed at the bottom of the page.

Click **Finish and Submit to District**.

2. [Monitor pending data changes.](#)

Pending Changes:

Dynamic Forms:

Until the change is approved by the campus, both the previous and new data are displayed, and an asterisk is displayed next to the fields to indicate that the change is pending.

If the administrator rejects a change for a dynamic form field, a message will be displayed next to the field indicating the reason for the rejection.

The message is cleared once you change the field and resubmit.

Standard Forms:

Until the change is approved by the campus, the **Show Changed Values** button appears on the form allowing you to toggle between viewing the previous and new values.

Click **Show Changed Values** to view the previous data.

The changed data is highlighted and reflects the most recent change. Click **Show New Values** to return.

If you edit a pending field, your most recent change will overwrite the former pending change. The campus staff will approve the most recent change.

What Happens Next?

All data changes submitted via ParentPortal must be reviewed by an administrator before the student's record is updated.

See [Campus: Review & Accept Data Changes](#).

- For a dynamic form, each request is approved or rejected individually. For example, if you update your phone and address, the campus may approve the phone number change, but may require proof of residence before an address change is approved.

- For a standard form, the form is accepted or rejected as a whole.

If campus staff rejects a submitted change, you will be notified by email. The email message should inform you why a particular change was rejected and what to do. Contact the student's campus for more information.

Campus: Review & Accept Data Changes

These steps are completed in ASCENDER Registration.

Once a parent has a valid ParentPortal ID for an enrolled student, the parent can add a student to his ASCENDER ParentPortal account and access the student's attendance, grades, and more. If the district has enabled parents to update a student's registration data, a parent can complete annual online registration for the upcoming school year, as well as submit changes to his student's current year data from ParentPortal, such as address and telephone number changes.

As parents update data for their students, campus staff must review and approve each change.

The parent can also review, complete, and submit forms via ParentPortal. As parents review and submit forms from ParentPortal, the campus staff can monitor the status and identify students who are missing required forms.

Follow these steps to monitor and approve data changes, and identify students who are missing forms.

Prerequisites:

- The steps in this guide must be completed in Registration by a user who has access to the pages described in these steps. Basic knowledge of the Registration application is assumed.
- For online registration changes, the district must have enabled parents to update student registration data online for the upcoming school year (i.e., the **Active Online Registration From** and **To** date fields must be set to allow parents a window of time in which to register.)
- For updates to a student's current year records, the district must have enabled parents to update student data online (i.e., the **Allow parents access to Student Data forms**

field must be set to Yes.) See [District: Set Up & Enable Forms](#).

2. Monitor student form submission.

Registration > Maintenance > Student Enrollment > Forms

The Forms tab allows you to view the status of a student's forms and maintain submission dates for hand-delivered forms.

Form information is displayed differently on this tab depending on the form type.

Some forms may only require the parent to acknowledge that he has reviewed the form. Other forms require the parent to input data. Some data input by parents must be approved by campus staff in order for the change to be made to the student's record. These settings are established in ParentPortal Admin on the Form Management pages.

- If a parent acknowledges the form via ParentPortal, you can view the form data and submission date.
- If a parent submits a form change via ParentPortal, you can view the form data and status.
- If a parent submits a hard copy of a form to the campus staff, you can manually record the date on which the form was delivered.

The Forms tab is not available until you retrieve a student on the **Student Enrollment** page. For a new student, you must enter and save all required data on the **Demo1** tab before proceeding to this tab.

The screenshot displays the 'Forms' tab in the ParentPortal Admin interface. At the top, there is a 'Save' button and a 'School Year: 2020-2021' dropdown. Below this, the student's information is shown: 'STUDENT: 504251 : AGUILAR, KAYLEIGH NORA' and 'TEXAS UNIQUE STU ID: 7181977627'. There are buttons for 'Comments', 'Bus Info', and 'Documents', and a 'Retrieve' button. A navigation bar includes tabs for DEMO1, DEMO2, DEMO3, AT RISK, CONTACT, W/R ENROLL, SPEC ED, G/T, BIL/ESL, TITLE I, PRS, GENERIC, PK ENROLL, and FORMS (which is currently selected). Below the navigation bar, there are filters for 'Sch Yr' (2021 and 2022) and 'Forms' (All, Required, Non Required). A table lists the forms with columns for Details, Sch Yr, Form Name, Submit Date, Submitter ID, Approval Date, Approver ID, and Required Form.

Before you can run the report for a specific form, the form must be set up in ASCENDER ParentPortal Admin - Form Group Management in the *Returning Student Registration* group or the *Student Data Maintenance* group. Only forms in these groups are available in the ellipsis lookup for the **Form Name** parameter.

Public Documents and New Student Enrollment forms, as well as Archived forms, are excluded.

Note that the **Submit Date** field, as displayed on the **Forms** tab, is used to associate a student's form with the current year.

Only forms that were submitted by the parent via ParentPortal are printed; this report does not include forms that were manually recorded as submitted on **Registration > Maintenance > Student Enrollment > Forms**.
