If you are a new user and do not have a user name, you must create a user name.

Log on to txConnect:

Password	Type the most recent password entered for this account. Your password is case-sensitive.

Click **Log In**. The Administrator Options page is displayed.

Warning: If you have three unsuccessful attempts to log on (invalid user name/password combinations), the system will lock out your account for 10 minutes. Try logging on again after 10 minutes.

For security purposes, your password will expire periodically. If your password has expired, you will be redirected to the Password Expired page before your student's Summary page is displayed. Follow the instructions provided in the Help for the Password Expired page.
