The following question format types refer to the answer you are soliciting from the parent.

<b>Date Field</b>	<p>The parent will be asked to type a date or select a date from a calendar widget.</p> <p>Example:</p> 
<b>Number Field</b>	<p>The parent will be asked to enter a number, such as a phone number, street number, or quantity.</p> <p>Example:</p> 
<b>Radio button</b>	<p>The parent will be asked to select one of several options (multiple choice, one answer).</p> <p>Example:</p> 
<b>Dropdown-Multiple Choice</b>	<p>The parent will be asked to select an option from a drop-down list (one or multiple selections).</p> <p>Example:</p> 
<b>Text Field</b>	<p>The parent will be asked to enter a few words or less. You can specify the maximum number of characters the parent can enter.</p> <p>Example:</p> 

<b>Text Area</b>	<p>The parent will be asked to enter a text response that may require more than a few words. You can specify the maximum number of characters the parent can enter.</p> <p>Example:</p>  <p>The screenshot shows a text input field with the placeholder text "Please describe your previous PTA experience." A hand cursor is hovering over a question mark icon next to the field. A tooltip box above the icon says "You can type up to 1000 characters." The field has a close button (X) in the top right corner.</p>
------------------	--

All question format types allow the following properties to be set:

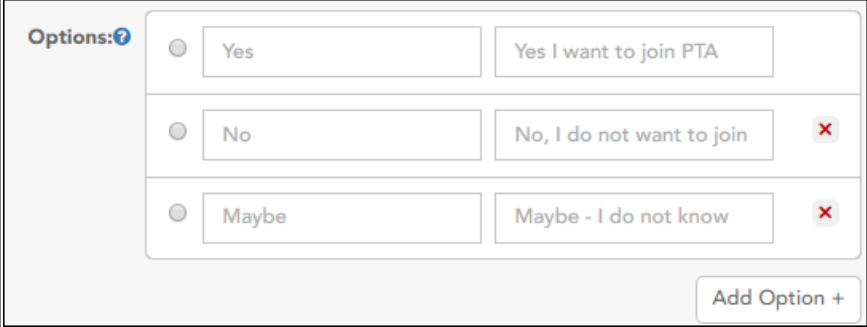

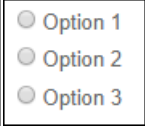

**NOTE:** For *Spanish* forms, provide this information in Spanish.

**TIP:** Be sure to add questions to the custom form that help identify the student that the information is being gathered for (e.g., What is your student's first name? What is your student's last name? Grade Level? What school does your child attend? (multiple choice)). The form results do not automatically provide default information such as first name, last name, grade level, campus.

<b>Required</b>	Select if parents are required to answer this question.
<b>Label</b>	<p>Type the question as you want it to appear in ParentPortal.</p> <p><b>NOTE:</b> Labels should be different for each field on individual forms. This text is for internal use when viewing custom form data.</p>
<b>Tool Tip</b>	Type further instructions for the question if needed. This will be displayed when a parent hovers over a question mark icon  next to the field.
<b>Placeholder Text</b>	Type any text that you want to appear in the field, such as a sample answer or guidance. For example, in an email field, you may type <i>name@email.com</i> . The parent's actual answer will overwrite any placeholder text. For <b>Date Field</b> , the placeholder text is always mm/dd/yyyy.

The following properties depend on the type of question format type selected:
