Release Date: 8/21/24 **ASCENDER Update:** 8.1200

District Administration > Tables > District Information > District Name/Address & Campus Name/Address

Corrected the issue where the program incorrectly generated invalid school year records upon creation. For example, attempting to add a record with a school year of 2025 would result in an erroneous record with the school year '202'.

District Administration > Options > TSDS > Domains & Entities

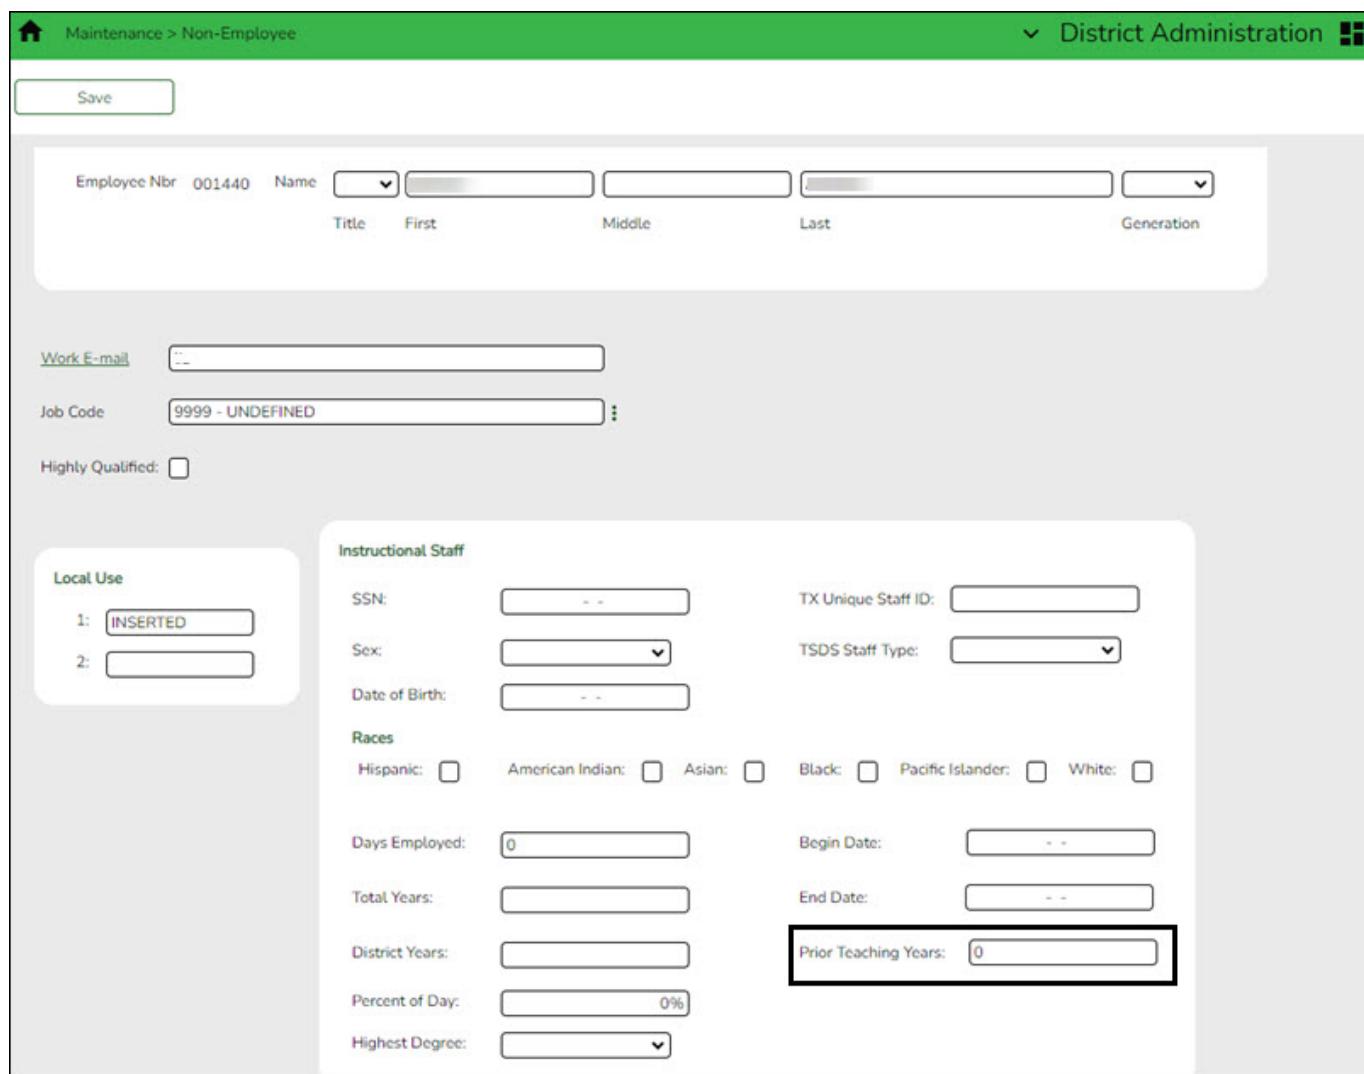

Added this tab to extract Texas Student Data System (TSDS) data and send it to Texas Education Agency (TEA) for Ed-Fi processing. Users can select and save domains and entities, view the status of extracted data, and initiate on-demand data submissions.

The screenshot shows the 'District Administration > Options > TSDS > Domains & Entities' page. At the top, there is a navigation bar with a home icon, the text 'Options > TSDS', and a dropdown menu 'District Administration'. Below the navigation bar, there are buttons for 'Submission Year' (set to 2025), 'Retrieve', 'Save', 'Extract & Send', and 'Reset'. The main content area is divided into three sections: 'OPTIONS', 'CONNECTION', and 'DOMAINS & ENTITIES' (which is currently selected). The 'DOMAINS & ENTITIES' section contains three main sections: 'Send Status', 'First Level Submission', and 'Second Level Submission'. The 'Send Status' section has a 'Send Status' button and a note about incomplete or low success percentage entities. The 'First Level Submission' section contains two columns of checkboxes: 'Education Organization Domain & Descriptors' (with items like LocalEducationAgency, EducationServiceCenter, SSAOrgAssociationExt (TX), and School) and 'School Calendar Domain' (with items like Calendar, CalendarDate, Session, and ReportingPeriodExt (TX)). The 'Second Level Submission' section contains two columns: 'Student Identification and Demographic Domain' (with items like Student, Parent, StudentParentAssociation, and StudentEducationOrganizationAssociation) and 'Staff Domain' (with items like Staff, StaffEducationOrganizationAssignmentAssociation, StaffEducationOrganizationEmploymentAssociation, and StaffSchoolAssociation). The 'Third Level Submission' section contains two columns: 'Enrollment Domain' (with items like StudentSchoolAssociation and StudentEducationOrganizationResponsibilityAssociation) and 'Prior Year Leaver Domain' (with items like PriorYearLeaver (TX), PriorYearLeaverParent, and PriorYearLeaverStudentParentAssociation). The 'Alternative and Supplemental Services Domain' section contains checkboxes for Program, StudentCTEProgramAssociation, and StudentTitleIPartAProgramAssociation. The 'Student Application Domain' section contains a checkbox for StudentApplication (TX). The 'Teaching and Learning Domain' section contains checkboxes for Course and CourseOffering.

District Administration > Maintenance > Non-Employee

Added the **Prior Teaching Years** field to report the total number of years an individual has previously held a teaching position in one or more educational institutions. For TSDS purposes, this information must be reported for Contracted Teachers.

The screenshot shows a software interface for maintaining non-employee records. At the top, there is a green header bar with the text 'Maintenance > Non-Employee' and 'District Administration'. Below the header, there is a 'Save' button. The main form area contains fields for Employee Nbr (001440), Name (with Title, First, Middle, Last, and Generation dropdowns), Work E-mail, Job Code (9999 - UNDEFINED), and Highly Qualified (checkbox). On the left, there is a 'Local Use' section with fields for 1 and 2. On the right, there is an 'Instructional Staff' section with fields for SSN, TX Unique Staff ID, Sex, TSDS Staff Type, Date of Birth, Days Employed, Begin Date, Total Years, End Date, District Years, Prior Teaching Years (which is highlighted with a black border), Percent of Day, and Highest Degree.
