# ASCENDER 11.0300

**Release Date:**10/xx/25 **ASCENDER Update:** 11.0300

## **District Administration > Options > TSDS > Connection**

Modified the program to disable the **API URL**, **Key**, and **Secret** fields for Exchange clients when the migration flag is set to Y and the URL contains "Exchange". If a connection to the EODS cannot be established, the fields will remain disabled, and an error message will be displayed instructing users to contact the Exchange or their ESC for assistance.
