ASCENDER 6.0400

ASCENDER

Release Date: ASCENDER Update: 6.0400

District Administration > Maintenance > User Profiles > Audit Log

Added this page to allow LEAs to manage user access to audit logs. LEAs can limit users to specific audit logs or provide users with global access to a specific system(s) (i.e., Business, Other).

The screenshot shows the 'Maintenance > User Profiles' interface. At the top, there is a 'Save' button. Below it is a dropdown menu for selecting a user, currently showing '-- Select user --', and a 'Retrieve User' button. A navigation bar contains tabs for 'ACCOUNTS', 'PERMISSIONS', 'PURCHASING PERMISSIONS', 'PURCHASING ADDRESSES', and 'AUDIT LOG', with 'AUDIT LOG' being the active tab. A 'Print' button is located below the navigation bar. The main content area features a table with columns for 'Delete', 'Log Type', and 'Audit Module Description'. The table contains one row with 'Business' as the Log Type and 'Bank Account Group Funds' as the Audit Module Description. Below the table are navigation controls: 'First', a left arrow, a dropdown showing '1 : Business', a right arrow, and 'Last'. An 'Add' button with a plus icon is also present. To the right of the table is a 'Global Access' section with checkboxes for 'Business' (checked) and 'Other' (unchecked).
