

ASCENDER 6.0400

Release Date: ASCENDER Update: 6.0400

District Administration > Maintenance > User Profiles > Audit Log

□ Added this page to allow LEAs to manage user access to audit logs. LEAs can limit users to specific audit logs or provide users with global access to a specific system(s) (i.e., Business, Other).

The screenshot shows the 'Audit Log' page within the 'Maintenance > User Profiles' section. The page has a green header bar with a home icon and the breadcrumb 'Maintenance > User Profiles'. Below the header is a 'Save' button. A dropdown menu labeled '-- Select user --' is followed by a 'Retrieve User' button. Below these are four tabs: 'ACCOUNTS', 'PERMISSIONS', 'PURCHASING PERMISSIONS', 'PURCHASING ADDRESSES', and 'AUDIT LOG' (which is selected and highlighted in green). A 'Print' button is located below the tabs. The main content area contains a table with columns: 'Delete' (with a trash icon), 'Log Type' (with an up arrow icon), and 'Audit Module Description'. The table has one row with 'Business' under 'Log Type' and 'Bank Account Group Funds' under 'Audit Module Description'. To the right of the table is a 'Global Access' section with two checkboxes: 'Business:' (checked) and 'Other:' (unchecked). At the bottom of the table, there are navigation buttons: 'First', a left arrow, a dropdown showing '1 : Business', a right arrow, and 'Last'. There is also an 'Add' button with a plus icon.

Security Administration > Utilities > Audit Log Inquiry

□ Updated all EmployeePortal module descriptions with the “EP” prefix to denote that the change (update, insert, delete) originated from EmployeePortal.
