ASCENDER 8.1200

Release Date: ASCENDER Update: 8.1200

District Administration > Tables > District Information > District Name/Address & Campus Name/Address

Corrected the issue where the program incorrectly generated invalid school year records upon creation. For example, attempting to add a record with a school year of 2025 would result in an erroneous record with the school year '202.

District Administration > Options > TSDS > Domains & Entities

Added this tab to extract Texas Student Data System (TSDS) data and send it to Texas Education Agency (TEA) for Ed-Fi processing. Users can select and save domains and entities, view the status of extracted data, and initiate on-demand data submissions.

Send Status

The Send Status button will display the number of records extracted and percentage successful for each entity. This can be used as a measure in the decision to continue adding entities to the extract and send process.

Incomplete or low success percentage entities will likely lead to errors for dependent endpoints. A dependency diagram can be found in Help.
