

ASCENDER 9.0410

Release Date: 1/7/25 **ASCENDER Update:** 9.0410

District Administration > Maintenance > Non-Employee

- ☐ Corrected the issue where begin and end dates were not saved upon creating a new record. These dates are now correctly saved when a record is added or updated.
- ☐ Modified the program to require the **Begin Date** and **End Date** fields for all records. This allows contracted staff to be tracked annually for TSDS reporting.
- ☐ Added the **Extract for TSDS** checkbox to the **Instructional Staff** section. This option will create an entry in the staging table for each non-employee who has a termination date when selected. Additionally, this option was added to the associated Non-Employee Report.

District Administration > Maintenance > Non-Employee > TSDS

□ Added this tab to create and maintain TSDS/Responsibility records for non-employees. The information on this tab is only extracted for non-employees who have an assigned **TX Unique Staff ID** on the Non-Employee tab.

The screenshot displays the 'TSDS' tab within the 'Non-Employee' maintenance section. At the top, there is a 'Save' button. Below it, the 'NON-EMPLOYEE' and 'TSDS' tabs are visible, with 'TSDS' being the active tab. The main area contains input fields for 'Employee Nbr' (018952) and 'Name' (AARON, ABCDE), followed by 'Retrieve' and 'Directory' buttons. Below these are two data tables: 'TSDS Days Employed Set' and 'Responsibility'. Both tables have headers for 'Percent Day Employed', 'TSDS # Days Employed', 'Begin Date', and 'End Date' (for the first table) or 'Delete', 'Details', 'Year', 'Campus', and 'Staff Classification' (for the second table). Both tables currently show 'No Rows'.

District Administration > Inquiry > TSDS Level 1 Errors

□ Modified the staging tables to extract actuals for classes 3XXX, 5XXX, and 7XXX objects by multiplying the amounts by -1. Note that this change will result in negative amounts for these classes if their current balances are positive. This corrects TSDS Mid-Year Finance fatal errors caused by the mentioned objects reporting negative amounts.

□ Corrected the issue that prevented fund balance totals from being included on the TSDS Prior Year Actuals report (**Extract Prior Year Reprint**). This corrects TSDS Mid-Year fatal error 20032-0007.
