ASCENDER 9.1000

ASCENDER 9.1000

Release Date: 6/6/25 **ASCENDER Update**: 9.1000

District Administration > Options > TSDS > Connection

❏ Implemented the following new process to automatically request and populate the new school year's **Key** and **Secret** information for Business-only LEAs that are Exchange Members and have completed the Fiscal Year Close process.

For this update to be successful, the following steps must occur:

- The LEA must complete the Finance > Utilities > Fiscal Year Close process.
- Once the Fiscal Year Close process is complete, a row for the new school year is added to the DR_DEMO table.
- After the new school year is added, the system references the URL in the EDFI_CONNECTION ODS_ADDRESS table to verify that the LEA is an Exchange Member.
- If the LEA is an Exchange Member, the existing functionality from the one-touch onboarding process is used to request the new school year's **Key** and **Secret** from the Exchange. If the LEA is not a member, no further action is taken.
- When the **Key** and **Secret** are received from the Exchange, a row for the new school year is added to the EDFI_CONNECTION table.
- The appropriate fields on the District Administration > Options > TSDS > Connection tab are populated with the data received from the Exchange. **Note**: Make sure to retrieve the correct **Submission Year** at the top of the tab to retrieve accurate data.

District Administration > Options > TSDS > Connection

❏ Implemented the following new process to automatically request and populate the new school year's **Key** and **Secret** information for LEAs that are Exchange Members and have completed the Annual Student Data Rollover (ASDR) process.

For this update to be successful, the following steps must occur:

- The LEA must complete the ASDR process.
- Once the process is complete, a row for the new school year is added to the DR_DEMO table.
- After the new school year is added, the system references the URL in the EDFI_CONNECTION ODS_ADDRESS table to verify that the LEA is an Exchange Member.
- If the LEA is an Exchange Member, the existing functionality from the one-touch onboarding process is used to request the new school year's **Key** and **Secret** from the Exchange. If the LEA is not a member, no further action is taken.
- When the **Key** and **Secret** are received from the Exchange, a row for the new school year is added to the EDFI_CONNECTION table.

- The appropriate fields on the District Administration > Options > TSDS > Connection tab are populated with the data received from the Exchange. **Note**: Make sure to retrieve the correct **Submission Year** at the top of the tab to retrieve accurate data.

District Administration > Utilities > Annual Student Data Rollover

❑ Corrected the issue with the utility that prevented information from *Registration > Maintenance > Campus Profile > Campus Information Maintenance > Control Info* from saving when the ASDR process is run.

❑ Corrected the issue with the utility that caused the process to fail when a student has two dyslexia risk codes with the same entry dates.

❑ Corrected the issue with the utility that caused the Begin Date in the **Campus Enrollment Type** group box on *Registration > Maintenance > Campus Profile > Campus Information Maintenance > Control Info* to display the last school year begin date.

TSDS Updates

Accelerated Instruction Set Extract Error

❑ Corrected the error that caused issues with the Accelerated Instruction Set when the **Student Accelerated Education Plan** checkbox on *Grade Reporting > Maintenance > Student > Accelerated Instruction* is set to zero.

Dual Credit - College Credit Hours - Extract

❑ Modified *Course Transcript* and *Course Transcript Extension* to extract college credit hours from individual student course records instead of from the course section.
