For example, a user can post a JV in a file ID and it will not be displayed in the Grants and Projects inquiry. This can be helpful with auditor's entries.

Finance > Maintenance > Fiscal Year Close

❏ Corrected the issue with possible out-of-balance issues stemming from running the closing process. Now, the Finance > Utilities > Out of Balance Correction utility is processed prior to processing any of the Fiscal Year Close functions.

❏ Corrected the issue that prevented report headers from being displayed if there was nothing to report on the Fiscal Year Close pre-post Unprocessed Budget Amendment report; only a blank page was displayed.

❏ Corrected the pre-post JV report to retrieve the Finance end-of-year stored procedure to accurately generate the opening entries.
